Physical Plant

<p>Number of buildings:</p> <p>Auditors should count all buildings that are part of the facility, whether inmates are formally allowed to enter them or not. In situations where temporary structures have been erected (e.g., tents) the auditor should use their discretion to determine whether to include the structure in the overall count of buildings. As a general rule, if a temporary structure is regularly or routinely used to hold or house inmates, or if the temporary structure is used to house or support operational functions for more than a short period of time (e.g., an emergency situation), it should be included in the overall count of buildings.</p>	39
<p>Number of inmate housing units:</p> <p>Enter 0 if the facility does not have discrete housing units. DOJ PREA Working Group FAQ on the definition of a housing unit: How is a "housing unit" defined for the purposes of the PREA Standards? The question has been raised in particular as it relates to facilities that have adjacent or interconnected units. The most common concept of a housing unit is architectural. The generally agreed-upon definition is a space that is enclosed by physical barriers accessed through one or more doors of various types, including commercial-grade swing doors, steel sliding doors, interlocking sally port doors, etc. In addition to the primary entrance and exit, additional doors are often included to meet life safety codes. The unit contains sleeping space, sanitary facilities (including toilets, lavatories, and showers), and a dayroom or leisure space in differing configurations. Many facilities are designed with modules or pods clustered around a control room. This multiple-pod design provides the facility with certain staff efficiencies and economies of scale. At the same time, the design affords the flexibility to separately house inmates of differing security levels, or who are grouped by some other operational or service scheme. Generally, the control room is enclosed by security glass, and in some cases, this allows inmates to see into neighboring pods. However, observation from one unit to another is usually limited by angled site lines. In some cases, the facility has prevented this entirely by installing one-way glass. Both the architectural design and functional use of these multiple pods indicate that they are managed as distinct housing units.</p>	8

Audit Findings

Audit Narrative (including Audit Methodology)

The auditor's description of the audit methodology should include a detailed description of the following processes during the pre-on-site audit, on-site audit, and post-audit phases: documents and files reviewed, discussions and types of interviews conducted, number of days spent on-site, observations made during the site-review, and a detailed description of any follow-up work conducted during the post-audit phase. The narrative should describe the techniques the auditor used to sample documentation and select interviewees, and the auditor's process for the site review.

The Federal Prison Camp Alderson, (FPC Alderson) entered a contract for the Prison Rape Elimination Act (PREA) auditing services with PREA Auditors of America, LLC on January 30, 2021. The primary sole auditor is Brian Sutherland, and no conflict of interest exists between the two parties. Brian is a twenty-four-year correctional veteran and has completed the PREA audit certification process. The terms of this contract began on January 30, 2021, and conclude on or before August 8, 2021, with the submission of the final report. The contract explained the efforts toward transparency, the role of third parties and support staff, compliance considerations regarding the PREA Standards, Department of Justice certification requirements, enough time to conduct the audit, and planning for any corrective action phases. The amount of time to complete the final report could extend past the August 8, 2021, date discussed due to a possible 180-day corrective action period. No corrective action period was required throughout the conclusion of this audit. The contract specified the on-site review was conducted on June 22-24, 2021, and the final contract submission included the standard provisions 401-405.

The Federal Bureau of Prisons operates FPC Alderson, and it is located at Glen Ray Road, Alderson, West Virginia 24910. Initial barriers existed toward the completion of the audit that included concerns with the COVID-19 pandemic however, universal precautions, social distancing, COVID testing, and daily temperature checks were utilized throughout the performance of the audit process and on-site review. Some housing areas were being used for COVID-19 quarantine areas and were not reviewed in person by the Auditor. In accordance with Bureau of Prisons (BOP) COVID-19 safety guidelines, quarantine areas were reviewed via security camera viewing. All inmate interviews were conducted while using COVID-19 safety precautions and Personal Protective Equipment (PPE). Due to COVID-19 quarantine safety guidelines some inmates were not able to be selected for interview. The Federal Bureau of Prisons, Program Review Division, External Auditing Branch was established as the facility point of contact as a Management Analyst was assigned to conduct the audit as the facility point of contact. No third-party entity exists between PREA Auditors of America, LLC, and the Federal Bureau of Prisons to include private contractors, operators, facilities, governmental entities, or ACA paid affiliates.

Pre-Audit Phase:

The Pre-Audit phase began on January 30, 2021, during the contract negotiation process as the auditor reviewed FPC Alderson website for information relating to PREA. The website confirmed the most recent PREA audit report was finalized on October 28, 2017, and the facility was found in compliance on 42 standards. The auditor noted one standard (115.14) was not applicable at the time of the final report submission. The auditor reviewed the 2017 PREA Audit Report posted on the facility website and notated all previously recommended corrective action responses. The website also included a data collection report from 2019 to 2020 and the auditor noted all agency statistical data throughout the review. The auditor prepared a timeline of events, issue log, and corrective action notations file at this time and informed the Management Analyst regarding the issue log communication process. The corrective action notations file attempted to explain the purpose of corrective action, the generalized outcome for facility audits, and the corrective action process is a supportive mechanism

utilized to enhance the facility compliance practices. The process map was supplied to the Management Analyst, and this included specific steps within the Pre-Audit, audit, and post-audit phases.

The auditor reviewed internet searches for the following considerations: pending litigation reports, Department of Justice involvement, federal consent decrees, local oversight, news articles, and press clippings. The auditor found no litigation reports or Department of Justice involvement in the past 12 months leading up to the audit regarding sexual abuse or sexual harassment. This was confirmed with the facility Warden during the on-site interview process. The auditor reviewed the mandatory reporting laws in West Virginia and determined the following legal considerations: definition of child abuse, time calculations, definition of a juvenile, age considerations, persons required to report, the basis to report, a listing of staff members at institutions, persons encouraged to report suspected abuse, reporting procedures, and applicability of the Mental Health Procedures Act. The auditor reviewed the 2017 PREA Audit Report for FPC Alderson and determined the facility does not accept youthful inmates. Their population is dedicated to female inmates 18 years of age or older. This was confirmed by statements on the facility website, inmate housing rosters, staff and inmate interviews, and population reports indicating inmate age ranges for the past 12 months.

The auditor submitted the Pre-Audit reporting notification to the PREA Resource Center, and an email confirmation was received. On April 26, 2021, communication was established with the agency Management Analyst and the determination was made to utilize the written Pre-Audit questionnaire final report paper document as opposed to the on-line audit system (OAS). The On-line Audit System is a secure software platform that will prevent the transfer of personally identifiable information and provide the user to have the ability to upload documents, retain the documentation for future use, and record the auditing process through all three important phases. On April 27, 2021, the auditor received an uploaded GOOGLE drive that included the Pre-Audit questionnaire and this tool is utilized by the auditor to determine the facility information, policies, agency organization chart, contracts, staffing plans, written justifications for deviations within the staffing plan, PREA reviews, staff rounds, population reports, searches, cross-gender viewing incidents, training curriculums, training logs, special needs documentation, hiring and promotion considerations, evidence protocols, medical treatment obligations, intake screening instruments, inmate grievances, investigation reports, and data collection.

There were no barriers to communication involved in the initiation of this Pre-Audit process as the auditor established clear communication with the Management Analyst for all electronic follow-ups. The Pre-Audit questionnaire included 26 pages and 64 file attachments upon completion. All documentation was reviewed by the auditor to triangulate compliance considerations, form the basis for the facility operations, terminology, structure, population, staffing, training, medical outreach, SANE/SAFE requirements, volunteer support, local advocacy, and the physical plant. The auditor submitted the PREA Audit Notice to the Management Analyst. This included both English and Spanish versions, directions regarding the minimum 6 weeks posting requirement prior to the on-site visit, the posting must be in all inmate housing units, visible throughout the facility, utilizing large text, colored paper, must discuss the confidentiality of inmate and staff correspondence, and the facility must provide proof of posting to the auditor. The auditor received confirmation of the on-site review agenda from the Management Analyst, and identified the request for interview lists including the following criteria: complete inmate rosters on the first day of the audit and each day thereafter during the on-site review, inmates with disabilities, limited English proficiency, inmates classified as lesbian, gay, bisexual, transgender, intersex, inmates in segregated housing, inmates who reported sexual abuse, inmates reporting sexual victimization during risk screening, a complete staff roster, specialized staff, contractors, and volunteer lists. The auditor also requested data regarding the total number of inmate grievances, incident reports, all allegations of sexual abuse and sexual harassment, all helpline calls that occurred within the last 12 months, all investigations reported in the last 12 months, and all grievances for allegations made within the last 12 months.

On April 1, 2021, the auditor received confirmation from the Management Analyst and photographic evidence regarding the posting of the auditor notice in all housing units. The auditor observed each photo was date and time stamped to indicate the 6-week mandatory compliance, and the writing was visible within the photos. The photos were labeled with the housing unit locations, common areas, intake, and visitation. The posting was confirmed during the on-site review and through random and informal staff and inmate interviews. The facility provided the notice in both English and Spanish versions and included a statement regarding confidentiality of inmate and staff correspondence. A private post office box was assigned to the auditor for confidential communication from both staff and inmates. The post office box was inspected weekly and continued to be inspected for correspondence throughout the post-audit phase. The auditor received one postal communication from an inmate at FPC Alderson. No correspondence was received by the auditor from staff.

The auditor received the following data regarding facility PREA investigations: three staff-on-inmate allegations of sexual abuse was submitted within the last 12 months, one inmate-on-inmate allegation of sexual abuse within the last 12 months, two of the allegations were ruled as unsubstantiated, and two cases remain pending for review. The facility reported zero staff-on-inmate allegations of sexual harassment in the past 12 months, and zero sexual harassment cases remain pending for review. The facility reported zero inmate-on-inmate allegations of sexual harassment in the past 12 months. The auditor reviewed two incident reports regarding sexual abuse, zero incident reports involving sexual harassment, and zero grievances reporting allegations of sexual abuse. The auditor was provided the following information regarding the grievance process: when a grievance form is received indicating an allegation of sexual abuse or sexual harassment, the grievance is forwarded immediately to the Office of Internal Affairs (OIA) for investigation. The OIA assists with administrative investigations, and the Federal Bureau of Investigation (FBI) conducts the criminal investigations. FPC Alderson currently has a Memorandum of Understanding with the Family Refuge Center for outside victim advocacy service as a method of reporting sexual abuse or sexual harassment. The inmate may also report the abuse to any staff member, write a letter or request form to any facility or department administrator, Federal Bureau of Prisons National PREA Coordinator Reentry Services Division, Federal Bureau of Prisons Office of Internal Affairs, use the inmate payphone to make a free call, or email a staff member. FPC Alderson reported a total of four investigations conducted within the past 12 months. This includes Administrative sexual abuse cases, and cases involving sexual harassment. No investigations resulted in substantiated claims for administrative actions or prosecution referral. The facility reported two unsubstantiated claims of sexual abuse, and there are two cases currently pending review. Administrative investigations are completed for every allegation of sexual abuse and sexual harassment and referrals are made for criminal investigations as needed.

On-Site Audit Phase:

The on-site review began on June 22, 2021 and continued until June 24, 2021. The in-brief with facility leadership began at 0800 hours and included the following staff: Management Analyst, Captain, Associate Warden Operations - PREA Compliance Manager, Case Management Coordinator, Safety Manager, and the Facility Warden. The Warden provided the welcoming remarks, and the staff introductions commenced following the auditor introduction. The auditor reviewed the agenda for the week, explained the auditor conduct and the site review process, discussed the expectations for informal interactions with staff and inmates, the file review process, interview expectations, site review, and out briefing on the final day. The inmate population on the first day of the audit was 622 total inmates. The facility provided the auditor with a private workstation that included the ability to print and secure documents. The current staffing rosters included 160 staff, 13 agency contractors and 16 volunteers. Additional documents and files reviewed by the auditor during the on-site review included the following: specialized staff and targeted inmate population reports, two investigative files, 20 staff personnel files, 21 inmate classification files, 36 inmate medical files, four contractor files, and 20 staff training files.

The audit methodology and selection process consisted of specialized staff and targeted inmate populations selected by the auditor. The auditor selected the fifth inmate from each housing unit roster, the fifth inmate listed on the targeted populations roster, and the fifth staff member listed on the daily duty rosters. The auditor was unable to speak with an investigator from the Federal Bureau of Investigation regarding external investigations due to time constraints. The auditor was unable to speak with a representative from the hospital regarding SANE evaluations as no point of contact was established. Email communication was provided by a representative from Just Detention International on June 15, 2021, indicating a review of the database found no PREA-related information regarding FPC Alderson has been received within the last 12 months.

The facility provided a private area for conducting formal interviews with staff and the inmate population. The interviews were conducted with COVID-19 precautions in place such as: at least six feet of separation between the auditor and the interviewee, the auditor wore a mask, and a washing station was available when necessary. The selection process for conducting the inmate interviews consisted of utilizing an inmate alpha roster that is organized by housing and bed assignment. The auditor methodology for selecting the random and targeted inmate interviews involved inmates from all housing units, PREA education dates, odd number listings, age, and length of stay. The selection process for random staff consisted of staff members from each shift, department, multiple roles, post locations, job titles, and time in service. A total of 39 interviews were conducted with the inmate population and these consisted of the following: 15 random inmates, nine informal inmate interviews, one inmate identifying as transgender, five limited cognitive disability, one limited English proficiency, eight inmates who have reported sexual abuse, and four inmates who reported sexual victimization during the risk screening. The auditor conducted the informal inmate interviews throughout the site review. The informal interviews supplied the auditor with the knowledge regarding one limited English proficient inmate listed in the totals previously discussed. No youthful inmates were available for interview as the facility does not house youthful inmates. This statement was verified during the population review with staff and inmate interviews and posted website materials. No victims of sexual assault were available during the on-site visit as the facility has not reported any substantiated allegations of criminal sexual abuse in the past 12 months. A total of four interviews with inmates demonstrated multiple categories.

The staff interviews consisted of 35 total interviews that were selected from shift rosters, specialized staff rosters, and staff identified during inmate interviews: 12 random staff interviews, six informal staff interviews, one incident review team staff, one custody staff first responder, one non-custody first responder, one Intermediate-level staff, one staff that screens for victimization and abusiveness, one PREA Compliance Manager, one Contractor, one intake staff, two investigative staff, one Facility Warden, one Human Resource staff, one staff designated to monitor retaliation, one program volunteer, one Medical Staff, one Mental Health Staff, and one outside victim advocate provider. The informal staff interviews indicated training received regarding the proper procedures for conducting searches, exigent circumstances for conducting the searches, and efforts to enhance safety when performing searches such as utilizing the back of the hand. The staff interviews indicated no cross-gender searches have been conducted in the past 12 months. The auditor conducted six informal staff interviews throughout the site review, and this assisted with identifying specialized staff for interviews such as the staff that monitor retaliation. No interviews were conducted with non-medical staff involved in cross-gender strip searches as the facility have not reported any cross-gender strip searches in the past 12 months.

During the site review the observation consisted of looking for blind spots, concerns with inmate access to certain areas, and identifying potential concerns with areas that may indicate a one staff to one inmate ratio. This may include limited access areas such as closets, offices, limited visibility concerns, no video monitoring equipment, or potential hiding areas that may impact the safety of the facility. The facility reported an average daily population count of 735 inmates. The auditor observed the activities associated with dayshift operations

and night shift movements to include supervision practices, staff-to-inmate ratios, post assignments, video monitoring equipment, inmate activities, and housing unit dayroom practices. Each housing unit had custody officers and Supervisors present and responsible to monitor each section within the facility. The facility master control staff provided an overview of all video monitoring equipment, camera placements in the facility, observations of PREA related materials posted in intake, medical, visitation, and inmate housing units. The auditor notice was confirmed and verified through staff rounds and observed cross-gender announcements made and documented in the logbooks. The auditor observed the system utilized for the deaf and hard of hearing populations regarding male staff entering the housing units. Male staff entering the housing units will announce their presence by stating "Male on the unit". This process was very effective and positive feedback was received from both staff and inmates. The facility restrooms, showers, and housing units were inspected for compliance and the auditor observed shower doors for privacy while taking a shower, restroom barriers for inmate privacy while using the restroom, and camera placements throughout the facility that did not indicate cross-gender viewing during periods of undress by the population. This prevents inmate viewing while changing clothes and using the restroom except during incidental viewing during routine staff rounds. FPC Alderson also utilizes the intercom system to announce male staff entering the units.

There is gender-specific post assignments within the facility and the gender-specific post assignments are a direct plan of action performed by FPC Alderson to remove the viewing capabilities from the monitoring stations of cameras that have the potential to violate the cross-gender viewing concerns. The following posts are dedicated gender specific staff assignments: Transport Officer - a minimum of one transport team member will be gender specific, Search Team Officers - a minimum of one search team member will be gender specific, Visiting Room Search Officer - this post is dedicated gender specific, and Outside Hospital in Room Officer - will be gender specific. The auditor reviewed the daily post assignments during the on-site review and compared the gender assigned with the posted memo requirements. The auditor observed roll call briefing for night shift and witnessed facility count and inmate movements being conducted. The auditor verified the staffing plan associated with each shift and confirmed the current staffing levels of 160 employees, 13 agency contractors, and 16 volunteers. The facility is currently operating with a 92% vacancy level and the Warden explained the percentage was adequate for the current location.

The auditor observed the activities of staff during the process of performing intake procedures. These procedures included the following methods: utilizing the screening instrument, verifying the classification process, providing the inmate with the PREA handout, and observed the strip-searching location to ensure no cross-gender viewing concerns. The intake PREA handout described the facility zero-tolerance policy, methods of reporting, detection, response, and methods to avoid manipulation that may lead to abuse. The auditor utilized the abuse helpline and received confirmation from the PREA Compliance Manager of receipt. The auditor observed PREA information posted throughout the facility.

The inmate and staff records are stored electronically, and access is limited requiring the Information Technology Manager approval. This includes all electronic classification records and once the risk screening information is uploaded into the server there are limited participants that may have access to this information such as the PREA Compliance Manager, PREA Coordinator, and Unit Managers. Inmate phones are in all the inmate housing units and intake section of the facility. An external reporting mechanism is available to the inmate population by dialing specific toll-free numbers to the response hotline, email capabilities, and posted addresses to the Federal Bureau of Prisons National PREA Coordinator Reentry Services Division, and the Federal Bureau of Prisons Office of Internal Affairs. These systems are designed to allow inmates the opportunity to report allegations of sexual abuse or sexual harassment to the staff directly.

The auditor noted the following discrepancies and achievements throughout the on-site review:

- The auditor noted the inmate handbook posted on the facility website is the 2012 version and the facility provided a copy of the current 2021 version. The auditor confirmed the current version was uploaded on the facility website during the post audit phase.
- The facility had several areas of concern regarding potential blind spots such as: kitchen areas, education, laundry, chapel, and facilities. The Warden advised these concerns have been identified and additional monitoring procedures have been initiated such as: out of bounds signage, additional staff rounds, mirrors placed in strategic locations, and recommendations for additional video monitoring equipment.
- The auditor identified a lack of staff knowledge regarding the assigned PREA Investigator, PREA Compliance Manager, and PREA Coordinator positions. This was corrected on-site as the information was provided to all staff and noted on the issued PREA first responder cards.
- The auditor identified a concern with the outside victim advocate provider requesting improved communication procedures. This was addressed with the PREA Compliance Manager and efforts for improved communication will be made once the facility is able to allow visitors access to the facility. Additional training opportunities have been discussed for the staff and the outside victim advocate.
- The auditor received positive feedback from the inmate population regarding the Resident Drug Abuse Program (RDAP).
- The auditor identified a concern with the after-action-reviews for investigations not being completed within 30-days of the conclusion of the investigation. The facility Warden identified the concern prior to the on-site review and implemented an improved monitoring process. No after-action-reviews were necessary during the post audit phase for verification.

The exit briefing was conducted with the following staff: Management Analyst, Captain, Associate Warden Operations - PREA Compliance Manager, Case Management Coordinator, Safety Manager, and the Facility Warden. The auditor provided an overview that included the following topics: positive reinforcement and compliance considerations, recommendations and areas of improvement, recommendations and areas of concern, wrap-up, and a final thought. The facility Warden provided an overall discussion regarding corrective action plans and the auditor authorized a 14-day time frame to provide documentation necessary to satisfy compliance. The auditor explained the requirements for development of the final report and completion of the audit.

Post-audit Phase:

The agency Management Analyst provided the necessary documentation to satisfy the recommendations during the on-site review. The specific standards provide additional information relative to auditor recommendations. The auditor reviewed all supporting photos, documents, and materials, during the post-audit review. The auditor verified all corrective action efforts and continued preparation of the Final Report. The auditor and Management Analyst continued electronic communications and finalized the implementations and recommendations associated with compliance. Federal Prison Camp Alderson demonstrated all corrective action procedures and practice based on the audit requirements, and additional discussion is documented in each specific standard.

Facility Characteristics

The auditor's description of the audited facility should include details about the facility type, demographics and size of the inmate, resident or detainee population, numbers and type of staff positions, configuration and layout of the facility, numbers of housing units, description of housing units including any special housing units, a description of programs and services, including food service and recreation. The auditor should describe how these details are relevant to PREA implementation and compliance.

The Federal Prison Camp Alderson, (FPC Alderson) is a minimum-security United States federal prison for female inmates in Alderson, West Virginia. It is operated by the Federal Bureau of Prisons, an agency of the United States Department of Justice. FPC Alderson is in the city of Alderson, West Virginia in the Mid-Atlantic Region. FPC Alderson, formerly known as the Federal Reformatory for Women, opened in 1927 as the first federal prison for women. Serving as a model for prison reform at the time, it is styled after a boarding school offering education with no armed security. FPC Alderson originally consisted of cottages built in a horseshoe pattern.

Federal Prison Camp Alderson sits on 159 acres of land and is the largest employer in the Alderson West Virginia area. The facility does not have any barbed wire surrounding the camp, and the inmates perform work assignments throughout the day. FPC Alderson houses inmates that are classified as minimum security, and Out/Community custody levels. The designated facility capacity is 992 inmates, the population count on the first day of the audit was 622, and the average daily population for the past 12 months is 735 inmates. The age range population for the inmates is 18 years of age and above, and the average length of stay is 1.5 years. The facility does not house youthful inmates, and this was confirmed during the on-site review.

There are a total of 39 buildings located on the grounds of FPC Alderson. The facility has a total of eight multiple occupancy open bay housing units. The housing units contain televisions for viewing, access to inmate telephones, internet, and microwaves. There are currently three segregation cells that are used sparingly in the Receiving and Discharge section of the facility. The administration building includes the Warden's office, Captain and Lieutenant's office, and the control center. The facility also includes the records office, mail room, receiving and discharge area, employee development, SIS, Psychology, financial management, commissary, laundry, warehouse, education and reentry, education annex, cosmetology, computer services, food service, health services and dental, safety, recreation areas, chapel, visitation room, lock shop, armory, training center, garage, landscaping and horticulture, carpentry, HVAC, painting, plumbing, welding, power house, communications, facilities office space, and an electric shop.

FPC Alderson has video monitoring systems strategically placed throughout the facility to enhance security and surveillance. Security rounds are conducted at a minimum twice hourly. The auditor observed the camera views with staff and determined there were no areas that allowed for private viewing of inmates showering, during clothing exchange, or property release. The showers contain doors and curtains, and the restrooms consists of door stalls. The male staff announce their presence when entering female housing units and this was confirmed during inmate and staff interviews. The on-site review did not indicate any concerns with cross-gender viewing.

The facility employs 160 staff that may have contact with inmates. The staffing plan is within accepted guidelines and is reviewed annually by staff and the administrative leadership. Overtime is used to fill mandatory posts, if needed, and a preferred staffing level is mandated and monitored by the facility Captain. FPC Alderson also indicates 13 contractors and 16 volunteers processed in the last 12 months. The facility offers numerous training opportunities for the staff such as local training programs, mandatory training, employee development, workforce projections, and position management. All staff at FPC Alderson are trained correctional workers first as they attend the Federal Law Enforcement Training Center (FLETC) in Glynco,

Georgia. This provides for additional security functions by administrative, medical, and programming staff. Each housing unit has a staff unit team that consists of the following: Case Manager, Unit Counselor, and Unit Manager. Together this team manages the population of 124 inmates per each unit, addresses all housing considerations, and behavior concerns.

The facility provides commissary services, numerous programs, PREA trained volunteer services, visitation, and food service. All criminal investigations are performed by the Federal Bureau of Investigation, and the administrative investigations are conducted by the facility trained PREA investigators. The facility reports two investigators are employed by the facility who are responsible for conducting administrative investigations into allegations of sexual abuse or sexual harassment. FPC Alderson offers various types of programs and religious services for inmates and promotes a reentry program that prepares inmates leaving with knowledge, skills, and abilities that aid in a productive life. The facility provides programs that include General Educational Development, Life Skills, Drug Abuse Treatment, Faith-based, and the food service apprenticeship program assists inmates seeking restaurant employment. The reentry program includes employment, education, housing, drug abuse treatment, driver's license assistance, life skills, anger management, and an extremely impressive Tradesman department that provides superior knowledge of the building trades in areas such as: preventive maintenance, repair, renovation, and construction.

The facility has a variety of confidential reporting resources for reporting sexual abuse and sexual harassment. This auditor successfully utilized the PREA helpline by dialing a toll-free number to the response hotline. The inmates can also email staff and outside reporting mechanisms through the Trust Fund Limited Inmate Communication System (TRULINCS). FPC Alderson did not have any judicial findings of inadequacy during this rating period. The health care services are provided by FPC Alderson staff and a few contracted medical positions. Medical is centrally located within the compound. The building allows for ambulatory care services, routine sick call, chronic care clinics, pharmacy, laboratory, radiology, dental, optometry, tele-video conferencing for the Psychology Services Department, specialty medical care offered by Contractor, and emergency care is provided by the Greenbriar Valley Medical Center and the Princeton Community Hospital. Bathroom services are available with officer escort while in the medical waiting area. The current staffing consists of 16 medical staff, a Chief Psychologist, Staff Psychologist, Special Population Program Coordinator, and a Psychology Technician. The medical staff interviews indicated the treatment is equivalent to the services received within the community without fees to the inmate population. The Sexual Assault Nurse Examiner (SANE) services are provided by the Greenbriar Valley Medical Center.

Supervisory staff are required to conduct unannounced rounds, two times per shift and the facility employs 24-hour security coverage. The auditor reviewed logbook entries and rounds verification reports indicating compliance with this standard. The facility offers additional control and safety measures to combat the threat of sexual abuse and enhance the safety of the facility by deploying perimeter patrols, perimeter lighting, alarm systems, electronic systems, counts, out of bounds notifications, admission and orientation programs, unit teams, inmate daily living responsibilities, PREA materials posted throughout the facility, suicide watch companions, sign out sheets, cubicle rules, administrative remedy procedures, security procedures, and unit rules.

Standard 115.11 Analysis

The following evidence was analyzed in making compliance determinations:

Documents :

1. FPC Alderson Pre-Audit Questionnaire responses
2. Agency policy 5324.12, Sexually Abusive Behavior Prevention and Intervention Program pages 1-62, June 4, 2015
3. Federal Bureau of Prisons Organizational Chart, BOP: Organization

5. Inmate Handbook FPC Alderson, pages 1-83, June 2012

Interviews:

1. PREA Coordinator
2. PREA Compliance Manager

Site Review Observations:

1. Staff performing cross-gender announcements upon entry to all housing units.
2. Supervisory staff documenting unannounced security rounds in the post logs.
3. Signs and posters indicating zero-tolerance posted throughout the facility.
4. Reviewed the facility training materials.

Findings (By Provision):

115.11 (a) - Agency PREA policy 5324.12, page 13 mandates a zero-tolerance toward all forms of sexual abuse, sexual assault, staff sexual misconduct, and sexual harassment. The agency policy 5324.12 describes the approach toward prevention, detection, reporting, and response to all forms of sexual abuse and sexual harassment. This includes facility preventive measures necessary to reduce and prevent sexual abuse and sexual harassment of inmates such as: architectural design, custody supervision, video monitoring equipment, inmate orientation procedures, medical screening within 24 hours of arrival, housing considerations, separate showers, classification screenings, 30-day reassessments, facility staffing plan, staff referrals, supervisory notifications,

mental health screenings, unannounced supervisory rounds, opposite gender housing announcements, community corrections procedures, and training.

During the on-site review, the auditor identified staff performing opposite gender housing announcements when entering all housing units, and unannounced supervisory rounds. The rounds were documented as unannounced in the unit logbooks, and the cross-gender announcements were made verbally by staff entering the units. The auditor noted postings throughout the facility indicating zero-tolerance toward all forms of sexual abuse, sexual assault, and sexual harassment. The policy includes definitions of prohibited behaviors in policy 5324.12, Section 115.6, pages 10-12, and these definitions include sexual abuse, sexual assault, staff sexual misconduct, and sexual harassment. There is a total of 6 pages included within this policy as a complete glossary of terms. Policy 5324.12, page 47 explains the presumptive approach toward staff, volunteers, and contractors who engage in sexual abuse will be termination and prosecution referral. Policy 5324.12, page 47 describes the sanctions for contractors, volunteers, and referrals to law enforcement. Agency policy 5324.12, page 48 includes disciplinary sanctions for inmates found to have participated in all forms of sexual abuse, sexual harassment, indecent exposure, kissing, and inappropriate physical contact.

Training is provided for all inmates, staff, volunteers, and contractors for the education of the duties and responsibilities toward prevention, detection, reporting, and response procedures. The auditor reviewed the facility training rosters and training curriculum that described the methods toward prevention, detection, reporting, and response procedures. Agency policy 5324.12, pages 24-29 provide information relating to employee, volunteer, contractor, and inmate training regarding zero-tolerance for sexual abuse and sexual harassment. This policy also informs the staff how to fulfill their responsibilities toward prevention, detection, reporting, and response procedures.

115.11 (b) – Agency policy 5324.12, page 13, explains the agency employs an upper-level, agency-wide National PREA Coordinator, a Regional PREA Coordinator, and designates a PREA Compliance Manager for each facility. The National PREA Coordinator position reports directly to the Assistant Director for the Reentry Services Division, and this position is documented in the agency organizational chart as an upper-level position. The National PREA Coordinator’s responsibilities include developing, implementing, and overseeing the Bureau’s compliance with PREA. The National PREA Coordinator provides oversight to all Regional PREA Coordinators. The National PREA Coordinator also ensures all contract facilities follow the PREA Standards. The Regional PREA Coordinator ensures policy guidelines are addressed in institutions within each region and this position reports directly to the National PREA Coordinator.

115.11 (c) - The PREA Compliance Manager reports directly to the facility Warden and communicates with the agency Regional PREA Coordinator. This position is in the facility organizational chart (Associate Warden). The PREA Compliance Manager maintains responsibility for the Sexually Abusive Behavior Prevention and Intervention Program. The PREA Compliance Manager must provide supervisory oversight to ensure the coordination of institution departments in prevention, detection, intervention, and response. The facility Warden may appoint supervisory staff as PREA points of contact in each key department such as Correctional Services, Psychology Services, and Health Services. The PREA Compliance Manager interview indicated enough time and authority to implement and oversee the responsibilities associated with the position.

Conclusion:

Interviews conducted with the PREA Compliance Manager confirmed enough time and authority to develop, implement, and oversee the efforts toward PREA compliance. Communication between this auditor, Management Analyst, and the PREA Compliance Manager was professional, timely, and very knowledgeable.

Interviews conducted with staff, inmates, volunteers, and contractors indicated knowledge regarding the facilities zero-tolerance policy toward all forms of sexual abuse and sexual harassment. The PREA Compliance Manager was always accessible throughout the auditing process, responded to emails and phone calls immediately, and provided adequate responses during the on-site review. The auditor confirmed an agency policy mandating zero-tolerance of all forms of sexual abuse and sexual harassment. The facility has a documented implementation plan outlining the facility's approach to preventing, detecting, and responding to sexual abuse and sexual harassment. FPC Alderson is fully compliant with this standard.

Interviews:

1. Agency Contract Administrator
2. Agency PREA Coordinator
3. Facility Warden

115.12 (a-b)

FPC Alderson does not contract with other entities for the confinement of inmates. The auditor confirmed this statement during the facility Warden interview. This statement was also confirmed during the 2017 PREA audit report. FPC Alderson does not have any responsibility, separate from that on the Agency level, to enter or maintain contracts for confinement of inmates with other agencies or jurisdictions. This statement was confirmed during the facility Warden interview. The auditor was not able to interview the Agency Contract Administrator or the National PREA Coordinator. However, both parties were interviewed on an agency level by PREA Auditors of America, LLC.

The Calendar Year 2020, Federal Bureau of Prisons Annual PREA Report, page one indicates the BOP has 122 institutions. In some cases, multiple facilities are co-located, comprising a correctional complex. In addition, the

agency contracts with 8 privately operated low security facilities and 150 Residential Reentry Centers (RCC). This information is not consistent with the data posted on the agency website.

Agency policy 5324.12, page 14 indicates, “The Bureau must ensure its contracts with secure privatized facilities, jails, juvenile facilities, and Residential Reentry Centers include their obligation to adopt and comply with the PREA standards. Privatization Management Branch and Residential Reentry Management Branch field staff must include PREA compliance monitoring within their scheduled contract monitoring activity”.

Conclusion:

Based upon the review and analysis of all evidence provided, the auditor has determined that the facility is fully compliant with this standard. FPC Alderson has not entered any contracts in the last 12 months for the confinement of inmates.

5. 6 Informal Staff Interviews

6. 12 Random Staff Interviews

Site Review Observations:

1. Viewed video camera footage, monitors, and storage
2. Inspected facility identified blind spots, locking devices, staff patrols, and supervisory log entries.

Findings (By Provision):

115.13 (a) - The auditor conducted a review of the documented Pre-Audit Questionnaire. The facility indicated 153 staff employed by the facility that may have contact with inmates. FPC Alderson Strength Report for pay period 13 indicated the following positions: Food Service = seven, Health Services = 15, Inmate Services = three, Custody = 53, Case Management = one, Correctional Systems = six, Unit Management = 17, Reentry = one, Drug Abuse Program = 13, Education = seven, Recreation = three, Religious Services = two, Psychology Services = four, Administration = four, Financial Management = six, Human Resource = two, Computer Services = two, Employee Development = one, Facilities = 16, Safety = two, Trust Fund = five, and the PHS Medical = one, for a total of 171 authorized staff at that time. The facility was operating at an 89% staffing level. The facility Warden informed me the total staffing on the first day of the audit was 160 and the facility was operating at a 92% staffing level. The institutional staffing plan is reviewed on a regular basis by the facility PREA Compliance Manager, Regional PREA Coordinator, Warden, and the staffing plan is reviewed annually by the National PREA Coordinator. This is a very thorough process that includes the following: daily shift assignment rosters, summary of personnel documents, and a quarterly report. The auditor reviewed the daily operations data for the three days during the on-site review and did not find any deviations within the staffing plan for the three days.

The facility utilizes video monitoring equipment, positioned in specific locations for the operators to view. The video monitoring is recorded with digital video recording and network video recording. Each camera has its own specific DVR and the retention rate for each camera recording is 30 days. The facility has cameras that are monitored by duty post staff, controlled, and accessed by investigators and supervisors as needed. These cameras monitor the perimeter and key areas of the facility. FPC Alderson camera coverage is monitored twenty-four hours-a-day by a dedicated officer located in the control center and the on-site review did not indicate any concerns with cross-gender monitoring. The current staffing plan and video monitoring system is adequate for the protection of inmates from sexual abuse; however, the facility has identified several blind spot areas throughout the facility where enhanced camera coverage will eliminate potential soft spots. The facility has implemented preventive measures such as additional unannounced security rounds documented within these areas.

The auditor confirmed the security levels for each shift, support staff, administrative staff, maintenance staff, and management by comparing the staff assigned to the daily duty rosters. The facility Warden interview indicated the factors considered in the development of this staffing plan includes, generally accepted detention and correctional practices, no judicial findings of inadequacy from Federal, internal, or external bodies. Each housing unit is monitored by correctional officers and supervisors conduct unannounced rounds throughout the

day. All programming activities are during dayshift hours and the facility provides additional staff to accommodate these needs with the addition of staff to monitor these areas. This auditor verified this process during the site inspection as the staffing levels were consistent with the daily roster report. The elements of State, Local Laws, Regulations, Standards, and other relevant factors are considered when developing the staffing plan. There was 0 substantiated allegations of sexual misconduct and 2 unsubstantiated incidents of sexual abuse considered prior to the review of the current staffing plan. The Human Resource Management Division and Administration Division, Central Office, must consider PREA factors and safety, when allocating the overall staffing resources. At the facility level, the Salary/Workforce Utilization Committee Meeting Minutes serves as the staffing plan.

115.13 (b) - The facility provided information during the Pre-Audit Questionnaire process indicating 0 deviations within the staffing plan in the last 12 months. The facility developed the daily duty rosters that documents all custody staff, and which post staff members are assigned. This report is developed and updated on an annual basis and the Warden interview confirmed this process. Agency policy 5324.12, pages 14-16 implement regular review of the staffing requirements and indicates the PREA Coordinator shall complete and submit the compliance review annually. The most recent Salary/ Workforce Utilization Committee Minutes are annually compiled by the Regional PREA Coordinator by May 1st and submitted to the National PREA Coordinator by June 1st. This documentation shall be forwarded to the facility Warden for review. The auditor reviewed 0 incident reports indicating deviations within the staffing plan. The facility reported all post assignments are filled with overtime hiring. The most common overtime needs consisted of FMLA status, sick leave, annual leave, and training. The facility Warden indicated in the formal interview there are mandates within the policy that require every post to be filled. All Federal Bureau of Prisons institution staff are designated as correctional workers first. All institution staff are required to attend academy training to receive custody certification. This allows all institution workers the ability to fill a post if necessary.

115.13 (c) - Agency policy 5324.12, page 16, includes the specific requirement regarding an annual review of the facility staffing plan by the Regional PREA Coordinator and the National PREA Coordinator. The PREA Compliance Manager and the facility Warden interviews confirmed the staffing plan is discussed numerous times throughout the year at the facility level, and changes are necessitated as required. The Warden confirmed no litigation, and no federal mandates are currently present that may affect the safety of the facility. The interview indicated full compliance with the provisions of this standard. The auditor reviewed the Salary/Workforce Utilization Committee Meeting Minutes for 2021 and confirmed this document included a discussion regarding accepted detention practices, judicial findings, oversight, blind spots, isolated physical plant locations, group dynamics, supervisory staff, programming, regulations, substantiated/unsubstantiated allegations, and vulnerabilities. This information was confirmed by the auditor during the on-site PREA Compliance Manager interview.

115.13 (d) - Agency policy 5324.12, page 16 informs staff regarding supervisor unannounced rounds must be made throughout the facility to deter sexual abuse or sexual harassment on each shift. Agency policy 5324.12 also includes staff are prohibited from alerting other staff members regarding the supervisory rounds and disciplinary action is the standard result of these actions. The on-site review indicated the supervisory rounds are being conducted and documented on the unit logs. The auditor reviewed documented supervisory logs for the month of February and October 2021, for the facility Institution Duty Officer, and this includes records for special housing, housing unit logs, and inspections conducted by the Institution Duty Officer on each shift. These documents indicated rounds being conducted during day and night shift activities and at random intervals. The logs did not indicate a distinct pattern as all rounds were conducted at various times and on different shifts. An interview was conducted with one upper-level supervisor that serves as the Institution Duty Officer and the

interview indicated the supervisor will enter the facility at random locations, double back on security rounds, and monitor the radio traffic regarding supervisory notifications. All staff interviewed indicated disciplinary action as the result of any infractions regarding unannounced rounds throughout their tours. The auditor conducted six informal staff and nine informal inmate interviews, and these interviews indicated higher-level staff are present throughout the units on both day and night shifts. The informal staff interviews indicated supervisors are always walking through the units and documenting their presence. The informal inmate interviews indicated supervisory presence within the units.

Conclusion:

Based upon the review and analysis of all evidence provided, the auditor has determined that the facility is fully compliant with this standard requiring the development and review of a facility staffing plan, intermediate-or higher-level supervisors conducting documented unannounced rounds, and the facility has developed a policy that prohibits staff from alerting other staff of the rounds occurring.

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

Standard 115.14 Analysis

The following evidence was analyzed in making the compliance determination:

Documents :

1. FPC Alderson Pre-Audit Questionnaire responses
2. FPC Alderson October 28, 2017, PREA Audit Report
3. Agency policy 5324.12, Sexually Abusive Behavior Prevention and Intervention Program pages 1-62, June 4, 2015

Interviews:

1. Zero- Line Staff Who Supervise Youthful Inmates
2. Zero - Youthful Inmates
3. Zero - Education and Program Staff
4. PREA Compliance Manager

Site Review Observations:

1. Reviewed the daily inmate rosters and housing reports
2. Reviewed the facility intake process and classification questionnaire

3. Reviewed FPC Alderson 2017 PREA Audit Report

Results Based on the Following Provisions:

115.14 (a-c) – FPC Alderson has not housed any youthful inmates in the last 12 months. Agency policy 5324.12, Section 115.14, Youthful Inmates, page 16 describes the considerations for a youthful inmate to be housed in the Bureau of Prison facilities. The policy states, A youthful inmate shall not be placed in a housing unit in which the youthful inmate will have sight, sound, or physical contact with any adult inmate through use of a shared dayroom or other common space, shower area, or sleeping quarters. In areas outside of housing units, the facility shall either maintain sight and sound separation between youthful inmates and adult inmates or provide direct staff supervision when youthful inmates and adult inmates have sight, sound, or physical contact. The agency shall make best efforts to avoid placing youthful inmates in isolation to comply with this provision. Absent exigent circumstances, agencies shall not deny youthful inmates daily large-muscle exercise and any legally required special education services to comply with this provision. Youthful inmates shall also have access to other programs and work opportunities to the extent possible. FPC Alderson does not house youthful inmates in the facility and this practice was confirmed during the interview process and verified by the facility population analysis of age ranges for the past 12 months. The facility PREA Compliance Manager interview confirmed this during the on-site review.

The auditor reviewed the October 28, 2017, facility PREA audit report and confirmed no youthful inmates were authorized during the time of the audit. The agency website indicates the following regarding FPC Alderson: “FPC Alderson is a minimum-security federal prison in Alderson, West Virginia, that houses female inmates”.

Conclusion: Based upon the review and analysis of all evidence provided, the auditor has determined that the facility is fully compliant with this standard requiring the youthful inmate to be housed separate from sight, sound, and physical contact with any adult inmates through use of a shared dayroom or other common space, shower area, or sleeping quarters. As FPC Alderson does not house youthful inmates and no further action is required within this standard.

Standard 115.15 Analysis

The following evidence was analyzed in making the compliance determination:

Documents :

1. FPC Alderson Responses to the Pre-Audit Questionnaire
2. FPC Alderson October 28, 2017, PREA Audit Report
3. Agency policy 5324.12, Sexually Abusive Behavior Prevention and Intervention Program pages 1-62, June 4, 2015
4. Agency policy 5521.06, Searches of Housing Units, Inmates, and Inmate Work Areas, pages 1-12, July 6, 2015

6. Course Completions for Search and Restraint Procedures for Special Populations, March 16, 2021, four pages

Interviews:

1. Non-Medical Staff Involved in Strip Searches = zero
2. Random Sample of Staff = 12 Random Staff
3. Six Informal Staff, and four Informal Inmates interviewed
4. Transgender/Intersex population = one Transgender on-site, one interviewed

5. 20 Random Inmate Interviews

Site Review Observations:

1. Confirmation of gender specific posts compared to the daily duty rosters.
2. Intake Risk Screening and Classification Review.
3. One - Transgender inmates observed during the on-site review.
4. Opposite gender announcement entering housing units.

Findings (By Provision):

115.15 (a) - Agency policy 5521.06, Searches of Housing Units, Inmates, and Inmate Work Areas indicates the facility shall not conduct cross-gender strip searches or cross-gender visual body cavity searches except in exigent circumstances or when performed by medical practitioners. FPC Alderson reported no cross-gender strip or visual body cavity searches conducted in the last 12 months. This includes no searches that involved exigent circumstances or performed by non-medical staff. This was confirmed through 12 random interviews with staff. As all 12 staff interviews advised the facility does not perform cross-gender strip or visual body cavity searches. The auditor conducted 15 random interviews with inmates and all 15 interviews indicated no cross-gender strip or visual body cavity searches have been performed. The inmate population advised strip searches are always conducted by the same gender. This information was also confirmed during six informal interviews with staff, and nine informal inmate interviews as the interviews confirmed the female staff are only allowed to perform pat searches of female inmates and all strip searches are conducted by the same gender. During the on-site review, the auditor received notice of one inmate currently housed at FPC Alderson that identified as transgender. No non-medical staff involved in cross-gender searches were available for interview due to the facility reporting zero cross-gender searches. Agency policy 5324.12, page 17 indicates when an exigent circumstance exists regarding a cross-gender search, all searches will be documented on an incident report and forwarded to the Operations Lieutenant, and the PREA Compliance Manager.

115.15 (b) – FPC Alderson houses female inmates however, the auditor did observe one inmate classified as a transgender as reported by the facility. The facility reported a total of one inmate that classifies as transgender population. The facility Warden confirmed this statement during the on-site review. The facility website indicated the facility houses female inmates.

115.15 (c) - Agency policy 5521.06, requires the facility shall document all cross-gender strip searches, cross-gender visual body cavity searches, and cross-gender pat down searches of inmates. The facility Warden confirmed this statement during the on-site review. No cross-gender searches of inmates were observed by the auditor during the on-site review. Interviews with 15 random inmates and 12 random staff did not indicate any concerns with cross-gender searches.

115.15 (d) - Agency policy 5324.12, page 18 explains inmates shall be able to shower, perform bodily functions, and change clothing without nonmedical staff of the opposite gender viewing their breasts, buttocks, or genitalia, except in exigent circumstances or when such viewing is incidental to routine cell checks. This policy mandates no gender specific posts, but female staff are assigned Transport Officers, Search Team Officers,

Visiting Room Search Officer, and will be considerate of gender specific posts. The auditor reviewed the daily post assignments during the on-site review and compared the gender assigned with the posted memo requirements. The facility offers inmate shower doors that do not create blind spots, half walls to protect from viewing during restroom functions, and mirrors that do not affect privacy. The facility restrooms, showers, and housing units were inspected for compliance and the auditor observed shower doors for privacy while taking a shower, restroom barriers for inmate privacy while using the restroom, and camera placements throughout the facility that did not indicate cross-gender viewing during periods of undress by the population. No video monitoring equipment was identified to be positioned to allow for cross-gender viewing in this capacity.

Housing unit post orders indicate a procedure for staff of the opposite gender to announce their presence when entering an inmate housing unit. This practice was observed throughout the facility site review as staff announced their presence and documented this action in the unit logbooks. FPC Alderson provides signage at the door of each unit requiring this announcement.

115.15 (e) - Agency policy 5521.06, strictly forbids staff to examine inmates for the sole purpose of determining the inmate's genital status. This policy includes transgender and intersex inmates, and if the genital status is unknown, the information will be obtained during the inmate conversations, medical records, or by performing a broader examination conducted by a medical practitioner. The PREA Compliance Manager interview confirmed all inmate information is utilized to ensure this process is adhered to. The agency policy 5521.06 explains the agency's approach to working with transgender and intersex inmates. Importantly, this policy explains the classification process and ensures the staff effectively interact professionally and respectfully toward this specialized population.

The facility is required to develop a Plan of Action to prepare for intake and housing of transgender and intersex populations. Agency policy describes the process to include the following: For purposes of pat searching, inmates will be pat searched in accordance with the gender of the institution, or housing assignment, in which they are assigned. Transgender inmates may request an exception. The exception must be pre-authorized by the Warden, after consultation with staff from Health Services, and Psychology Services Department. Exceptions must be specifically described (e.g., "pat search only by male staff"), clearly communicated to relevant staff through a memorandum, and reflected in SENTRY (or another Bureau database, e.g., posted picture file). Inmates should be provided a personal identifier (e.g., notation on commissary card, etc.) that indicates their individual exception, to be always carried and presented to staff prior to pat searches. Each inmate is considered on a case-by-case basis and the final determination is mandated by the Warden. A total of one inmate at FPC Alderson identify as transgender and the auditor was able to interview one inmate from this population. The inmate indicated satisfaction with current housing considerations, the facility authorizes male products to be ordered from the commissary, and the facility utilizes the inmate ID card to determine housing and search preferences to staff.

115.15 (f) – The agency policy 5521.06, indicates all staff are trained to conduct proper pat down searches on inmates to include cross-gender searches. FPC Alderson describes the methods to conducting clothed searches, visual strip searches, body scanner screenings, and body cavity searches. Staff are trained how to conduct pat searches during Introduction to Correctional Techniques, Annual Training, a Sallyport video titled "Inmate Pat Search," and written policy. This is a mandated training for all employees and the auditor reviewed four pages of staff training course completion documents for the past 12 months. Random interviews with 12 random staff and six informal staff interviews indicated knowledge of the training and verbal demonstrations regarding proper conduct. The training curriculum described proper conduct as utilizing the back of the hand to conduct

the pat-down search, maintaining strict professionalism, utilizing correct terminology, providing a private area for the search, limited cross-gender viewing, and being respectful toward population needs.

Conclusion: Based upon the review and analysis of all the available evidence, interviews, on-site observations, policy, procedure, and practice considerations, the auditor has determined that the facility is fully compliant with this standard. No corrective action is required.

3. Zero Inmate with a Hearing Disability
4. One Inmate with Limited English Proficiency (LEP)
5. Five Inmates with Cognitive Disabilities
6. 12 Random Staff Interviews
7. Six Informal Staff Interviews

Site Review Observations:

1. Signs and posters indicating zero-tolerance posted throughout the facility English/Spanish formats
2. The unit phones are available with a TTY service and Spanish options
3. Opposite Gender Announcements in the housing units
4. Written materials in multiple language formats
5. Staff interpreters on-site and utilized during interviews
6. Language Line Solutions utilized during interviews

Findings by Provision:

115.16 (a) Agency policy 5324.12, Sexually Abusive Behavior Prevention and Intervention Program explains the agency has established procedures to provide disabled inmates equal opportunity to participate in or benefit from all aspects of the efforts to prevent, detect, and respond to sexual abuse and sexual harassment. The policy includes language associated with deaf or hard of hearing inmates, blind or having low vision, inmates who have intellectual disabilities, psychiatric disabilities, speech disabilities, and limited English proficiency. The auditor utilized the facility contract Language Line Solutions to interview 1 inmate with a limited English proficient disability. The inmate advised his primary language as Spanish and the facility provided the PREA materials, inmate handbook, and posters in a language he understood. The facility Warden interview indicated the facility has a contract to provide language line services, the facility is required to post materials in both English and Spanish formats, there are options for the blind, staff listed as interpreters, and all PREA related materials are available in multiple languages. The auditor inspected the inmate phone systems, the TTY options are available for hard of hearing populations, and the voice recorded options are available in Spanish formats.

115.16 (b) The inmate handbooks are written in both English and Spanish format. The PREA and Americans with Disabilities Act provisions are documented in policy 5200.06, Management of Inmates with Disabilities, and indicate the following resources are available for the inmates: closed captioning, large print material, reading of materials to inmates by staff, department translator lists, and the Language Line Solutions. Inmates are provided the facility handbook in their primary language upon request and the auditor reviewed the intake process.

115.16 (c) The facility provides interpreter services with a language line service known as Language Line Solutions. The facility offers a TRULINCS email service to communicate with the inmate population and the staff. This service is available for inmates with limited reading skills in both English and Spanish. The auditor tested the email process during the on-site review and an immediate response was provided. Posters and signs are available throughout the facility in both English and Spanish relating to reporting mechanisms, and prevention techniques. Staff training files reviewed indicated training received for managing inmates at risk of sexual abuse and identified the policy against using inmate interpreters. The auditor interviewed 12 random staff and conducted six informal staff interviews that described the use of the language line or staff interpreter services. Inmates would not be used to provide interpreter services during a sexual abuse or sexual harassment allegation. Interviews conducted with inmates included zero inmates with a documented physical disability, one limited English proficiency, and five cognitive disabilities that did not reveal concerns regarding this standard.

Conclusion: The evidence reviewed by the auditor reveals a significant level of facility importance regarding inmates with disabilities or inmates with limited English proficiency having the ability to communicate effectively with staff. This includes efforts to prevent, detect, and respond to sexual abuse and sexual harassment. The facility has taken an above average approach to accommodate steps to communicate effectively with inmates who are deaf or hard of hearing, have speech disabilities, are blind or low vision, intellectual disabilities, limited reading skills, psychiatric disabilities, or limited English proficient. This includes a Language Line Solutions contract, and the potential staff interpreter lists. The staff interviews did not indicate concerns regarding the use of inmate interpreters, readers, or assistants during sexual abuse or sexual harassment investigations. The agency has a policy in a written format and the review of the agency training materials indicated the facility training aligns with the written policy. The Warden interview indicated a strong knowledge base and the expected communication results designed within the intent of the written policy. The facility is fully compliant with this standard.

7. Facility Investigator

Site Review Observations:

1. 20 Random Staff Personnel Files
2. New Employee Background Screenings Confirmed
3. Contractor Background Screenings Confirmed
4. Five-year Background Screenings Confirmed

Findings by Provision:

115.17 (a) Agency policy 3000.03, page 28 prohibits hiring or promoting anyone who may have contact with inmates and prohibits enlisting the services of any contractor who may have contact with inmates who has engaged in, been convicted of, or civilly/administratively adjudicated in sexual abuse in a prison, jail, lockup, community confinement facility, or other institution. This was confirmed during the interview with one Human Resource staff member. Each staff member must provide responses to specific questions relative to PREA during the submission of the application. A background questionnaire form is completed authorizing the facility to conduct a background screening. The auditor reviewed 20 staff personnel files that indicated a response to these PREA related questions.

115.17 (b) Agency policy 3000.03, page 41-45 requires the facility to consider any incidents of sexual harassment in determining whether to hire or promote anyone, or to enlist the services of any contractor, who may have contact with inmates. This was confirmed during the interview with one Human Resource staff member. The auditor reviewed 20 staff personnel files including their signatures on the background release forms. None of the 20 staff personnel files indicated concerns regarding this provision.

115.17 (c) The agency policy 3000.03, Human Resource Management Manual indicates a screening is required by law prior to hiring. This includes the following: employment history checks, criminal history checks, and the National Sex Offender Registry screenings. These checks are completed prior to hiring new employees who may have contact with inmates, criminal background records checks and efforts to contact all prior institutional employers for information on substantiated allegations of sexual abuse, or any resignation during a pending investigation of an allegation of sexual abuse is completed. The auditor spoke with the Human Resource Manager and determined 17 criminal background checks were completed in the past 12 months. These record checks were through the National Crime Information Center, and all current staff background checks are performed prior to employment. The background checks include the following: Biometric information, driving records, investigation files, licensure, military records, and drug related convictions. The Federal Bureau of Prisons staff must complete a Federal eQip process that includes a preliminary screening and a full clearance for duty.

115.17 (d) The Pre-Audit questionnaire indicated zero background checks completed for staff covered under contracts for services that may have contact with inmates. This information was confirmed during the Human Resource Manager interview. The auditor reviewed agency policy 3000.03 regarding the provision of this standard that documents background checks are conducted for all applicants and employees. All contracted staff must complete a Federal eQip process that includes a preliminary screening and a full clearance for duty.

115.17 (e) Agency policy 3000.03, indicates criminal background checks are conducted on all current employees, volunteers, and contractors, at least every 5 years. This is dependent upon what type of clearance badge you were awarded at the time of employment or admission into the facility. This was confirmed during the one Human Resource staff interview. This is captured within the agency reporting mechanism and discussed during

the Human Resource interview. The systems that capture this information are the National Crime Information Center, and the West Virginia Department of Motor Vehicles. All employees, and contractors must renew their clearance certification every five years by completing a Federal eQip process that includes a preliminary screening and a full clearance for duty.

115.17 (f) All applicants and employees, who may have contact with inmates, will be asked about previous misconduct in all written applications, interviews for hiring or promotion, or during written evaluations. This was confirmed during the review and interview with the one Human Resource staff member. The auditor reviewed 20 staff files and confirmed the signed document was present asking the specific questions relative to sexual abuse, sexual assault, and sexual harassment.

115.17 (g) Employees must disclose all misconduct allegations and any material omission or false information regarding misconduct will be grounds for termination. The Human Resource Manager interview explains failure to report criminal charges and convictions may result in disciplinary action, demotion, and termination. In addition, 20 staff personnel files were reviewed, and no issues were determined regarding this practice.

115.17 (h) The facility tracking mechanism is documented on the applicant summary form and includes a criminal records check, valid driver's license, personal interview, proper documentation provided, social security number compliance, certification verification, correctional reference checks to include prior employers, resignations, and substantiated allegations. The Human Resource Staff interview provided documentation demonstrating a criminal history and driving history inspection was previously conducted for staff. The Human Resource Staff interview confirmed a criminal background check is conducted prior to offering promotional opportunities and the auditor verified this process during the employee file review. All staff and contractors are required to complete a Federal eQip process that includes a preliminary clearance and a full clearance for duty. This process is repeated every 5 years.

Conclusion: Based on the evidence reviewed by the auditor to include: 20 staff personnel files, interviews with one Human Resource staff, agency and facility policy, contractor reviews, 12 random staff interviews, and 6 informal staff interviews, the auditor finds no discrepancies within this standard required for corrective action. The steps considered by the facility to ensure the safety of the inmates with qualified staff is impressive, as all employee, and contractor background investigations are conducted by the Federal eQip process. The facility offers a very detailed ID clearance system, and all staff are required to maintain their clearance throughout employment. All staff must be reevaluated upon promotion and are required by policy to inform Human Resource staff regarding any negative interaction with law enforcement. The ID clearance system is consistent across all parameters to include the auditor clearance prior to authorized approval to conduct this audit.

Standard 115.18: Upgrades to facilities and technologies

All Yes/No Questions Must Be Answered by the Auditor to Complete the Report

Standard 115.18 Analysis

The following evidence was analyzed in making compliance determinations:

Documents :

1. FPC Alderson Responses to the Pre-Audit Questionnaire
2. FPC Alderson October 28, 2017, PREA Audit Report
3. Agency policy 5324.12, Sexually Abusive Behavior Prevention and Intervention Program pages 1-62, June 4, 2015

Interviews:

1. Facility Warden

2. PREA Compliance Manager
3. PREA Coordinator

Site Review Observations:

1. Camera and monitor placement throughout the facility
2. Video and storage areas and camera footage
3. Gender Specific post assignments
4. Cross-gender viewing on video monitoring equipment

Findings by Provision:

115.18 (a) The agency policy 5324.12 indicates when designing or acquiring any new facility and in planning any substantial expansion or modification of existing facilities, the agency shall consider the effect of the design, acquisition, expansion, or modification upon the agency's ability to protect inmates from sexual abuse.

The facility Warden confirmed no substantial expansions were performed to FPC Alderson facility within the last 12 months. The interview with the Warden indicated the safety and privacy needs for inmates is always considered. Whenever analysis is performed the idea of creating areas of safety and eliminating blind spots are important.

115.18 (b) The agency policy 5324.12 indicates when installing or updating a video monitoring system, electronic surveillance system, or other monitoring technology, the agency shall consider how such technology may enhance the agency's ability to protect inmates from sexual abuse. The facility has performed minor upgrades to the video monitoring equipment within the last 12 months. The auditor reviewed the video footage during the on-site review in correlation with the previously documented gender specific post assignments. There were no immediate concerns identified regarding cross-gender viewing of the video monitoring equipment. The video monitoring equipment has been upgraded, and no future expansion is being considered in the current vision as indicated during the facility Warden interview.

Conclusion: The agency has implemented a policy and a program to monitor the effects of upgrades, camera placement, and video monitoring equipment throughout their facilities. Each camera has a full DVR recording support, and all modern additions were provided to assist in preventing, detecting, and responding to sexual abuse and sexual harassment allegations. The efforts provided by the facility meets the requirements of this standard. The Warden advised the PREA Compliance Manager participates in the discussions regarding video monitoring equipment and future expansion, and all documentation is forwarded for review to the regional level PREA Coordinator.

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

Standard 115.21 Analysis

The following evidence was analyzed in making compliance determinations:

Documents :

1. FPC Alderson Responses to the Pre-Audit Questionnaire
2. FPC Alderson October 28, 2017, PREA Audit Report
3. Agency policy 5324.12, Sexually Abusive Behavior Prevention and Intervention Program pages 1-62, June 4, 2015
4. Reviewed zero investigations involving a Sexual Assault Nurse Exam Referral
5. Reviewed zero SANE Evaluations from Princeton Community Hospital
6. Memorandum of Understanding, Family Refuge Center, five pages, January 9, 2020
7. Memorandum of Understanding, Princeton Community Hospital policy, March 2. 2021

Interviews:

1. 12 Random Staff
2. Zero Sexual Assault Nurse Examiner
3. PREA Compliance Manager
4. Eight Inmates who Reported Sexual Abuse
5. One Non-Custody First Responder
6. Six Informal Staff Interviews

Site Review Observations:

1. Toll-Free Number posted in all Housing Units for a Victim Advocate Provider.
2. PREA Signs and Posters posted in all Housing units in English and Spanish formats.

Findings by Provision:

115.21 (a) The Federal Bureau of Prisons and FPC Alderson utilize the facility investigators for conducting administrative sexual abuse and sexual harassment investigations, the Office of the Inspector General (OIG), and the Federal Bureau of Investigation has the responsibility for conducting criminal abuse investigations. The SIS

and the FBI utilize a uniform evidence protocol when conducting sexual assault investigations and forensic medical examinations. The agency policy 5324.12 describes the uniform evidence protocol required by the facility on pages 22-24. The auditor interviewed 12 random staff and all interviews indicated securing the scene and the Evidence Recovery Team would be responsible for collecting the evidence at the scene. The agency policy 5324.12 indicates the standard utilized when conducting sexual harassment and discrimination investigations. The auditor reviewed a Memorandum for PREA File acknowledging an agreement between the Federal Bureau of Prisons and the Federal Bureau of Investigation. This agreement is effective until both parties express otherwise.

115.21 (b) FPC Alderson does not house youthful inmates, and this was confirmed by the agency website, on-site interviews conducted with staff, and the population statistical data. Agency policy 5324.12 explains the protocol established for evidentiary purposes shall be developmentally appropriate for youth. This policy was adapted in correlation with the National Protocol for Sexual Assault Medical Forensic Exams, Adult/Adolescents.

115.21 (c) The facility offers all inmates who experience sexual abuse access to forensic medical examinations and without financial cost to the victim. The agency policy 5324.12 advises the facility shall offer all victims of sexual abuse access to forensic medical examinations, whether on-site or at an outside facility, without cost, where evidentiary or medically appropriate. FPC Alderson utilizes an off-site medical emergency room, Princeton Community Hospital for conducting emergency treatment and Sexual Assault Nurse Exams (SANE). A total of zero forensic medical exams were performed by a Sexual Assault Nurse Examiner (SANE) during the past 12 months. The number performed by a SANE was zero, and the number performed by a qualified medical practitioner was zero. This auditor was unable to speak with the SANE nurse during the on-site review. The staff indicated they would provide the necessary support at the Princeton Community Hospital during the sexual assault exam. This was also confirmed by the PREA Compliance Manager and the Health Services Administrator during the on-site review. The Health Services Administrator confirmed all medical procedures will be performed to the victim at no cost. FPC Alderson also provides on-site mental health treatment through their crisis stabilization and transitional care units. This includes activities groups, social skills training, group therapy, and medication management groups.

115.21 (d) FPC Alderson medical staff complete the National Institute of Corrections training curriculum regarding PREA: Medical Health Care for Sexual Assault Victims in a Confinement Setting, and PREA: Behavioral Health Care for Sexual Assault victims in a Confinement Setting. The auditor reviewed a Memorandum of Understanding with the Family Refuge Center for outside victim advocate services. The agency posters are posted in all housing units to identify the 24-hour services offered by the agency, advocacy, case management, and hospital accompaniment. The poster offers an address for inmates to write directly to the agency and the information is also provided in the inmate handbook. The information provided to the inmates in intake includes a facility sexual abuse awareness handbook and the methods to obtain victim advocate services is included within the pamphlet. The auditor observed this pamphlet being provided to the inmates during the intake process. All inmates are required to sign for receipt of the inmate handbook and the PREA pamphlet.

115.21 (e) The auditor reviewed zero incident reports demonstrating a victim advocate present during the sexual assault medical exam as the facility reported zero incidents involving the need for an exam. Agency policy 5324.12, page 23 explains victim advocates from the community used by the Bureau are preauthorized by the agreement. The victim advocate will serve as emotional support for the inmate while navigating through the treatment and evidence collection processes. This was confirmed during the PREA Compliance Manager interview. The facility utilizes the Family Refuge Center for outside victim advocate services and the auditor review the MOU for compliance.

115.21 (f) FPC Alderson utilizes the facility Special Investigative Services (SIS) and the Office of Internal Affairs (OIA) for conducting administrative sexual abuse and sexual harassment interviews, and the Federal Bureau of Investigation (FBI) and the Office of the Inspector General (OIG) have the responsibility for conducting criminal abuse investigations. This was confirmed during the PREA Compliance Manager, Investigative staff interviews, and six informal staff interviews were able to identify the SIS Lieutenant as the point of contact for facility investigations.

115.21 (g) N/A

115.21 (h) The facility PREA Compliance Manager verified the facility has made attempts to provide an agreement with the community advocate to offer emotional support, crisis intervention, information, and referrals. FPC Alderson will also utilize the Psychology Services Department staff to provide representatives for the emotional support services.

Conclusion: The facility has in place a policy reflecting the efforts toward providing investigations, victim support, evidence protocol, and forensic medical examinations. The auditor reviewed efforts by the facility to contact a provider for the provisions required and all facility efforts are documented in writing. The facility utilizes the services of Family Refuge Center for outside victim advocacy services. All provisions were met within standard 115.21 and no further corrective action required.

Standard 115.22 Analysis

The following evidence was analyzed in making compliance determinations:

Documents :

1. FPC Alderson Responses to the Pre-Audit Questionnaire
2. FPC Alderson October 28, 2017, PREA Audit Report
3. Agency policy 5324.12, Sexually Abusive Behavior Prevention and Intervention Program pages 1-62, June 4, 2015
4. Memorandum of Understanding, Family Refuge Center, Victim Advocacy, January 9, 2020, five pages
5. Reviewed Zero investigations involving a Sexual Assault Nurse Exam Referral
6. Reviewed Zero SANE Evaluations from Princeton Community Hospital

Interviews:

1. Facility Warden
2. One Facility Investigator
3. PREA Compliance Manager
4. PREA Coordinator
5. One Agency Investigator

Site Review Observations:

1. Reviewed the facility website for Investigative information.
2. Reviewed Operations Lieutenant Checklist
3. Reviewed Two investigative Files
4. Case Management Log Entry System

Findings by Provision:

115.22 (a) FPC Alderson Pre-Audit Questionnaire listed four allegations of sexual abuse and sexual harassment in the past 12 months. However, the auditor reviewed two allegations during the on-site review. This resulted in two administrative investigations and two allegations remain pending. FPC Alderson recognizes the grievance system as a method of reporting allegations of sexual abuse; and zero grievances submitted within the last 12 months regarding allegations of sexual abuse. When a grievance form is received indicating an allegation of sexual abuse or sexual harassment, the grievance is forwarded immediately to the Special Investigative Services (SIS) for investigation. FPC Alderson provides an email helpline as a method of reporting sexual abuse or sexual harassment. FPC Alderson has entered contract with the Family Refuge Center for emotional support services to victims of sexual abuse. The facility reported a total of zero inmates are currently participating in the services being offered by the Family Refuge Center as there have been no confirmed allegations of sexual abuse in the past 12 months.

Administrative investigations are conducted for all allegations of abuse or harassment and criminal investigations will be conducted upon referral. FPC Alderson reported a total of four investigations conducted within the past 12 months. This includes Administrative sexual abuse cases, criminal sexual abuse cases, and cases involving sexual harassment. Investigations resulted in zero substantiated claims for administrative actions, two unsubstantiated claims, and zero claims that the investigation was determined to be unfounded. There are two cases that are still pending an outcome. Administrative investigations are completed for every allegation of sexual abuse and sexual harassment and referrals are made for criminal investigations as needed.

115.22 (b) The agency policy 5324.12 requires all allegations of sexual abuse and sexual harassment to be investigated and referred for administrative review or criminal prosecution. Policy 5324.12 ensures the allegation of sexual abuse or sexual harassment is referred to an agency with the legal authority to conduct criminal investigations. The Office of the Inspector General and the Federal Bureau of Investigation shall be

responsible for criminal investigations in matters relating to sexual abuse. This notification policy is posted on the agency website and the procedures for reporting allegations are found in the agency policy 5324.12. This auditor reviewed documentation indicating all four cases were entered into the facility incident database. This information was provided and explained by the PREA Compliance Manager.

This auditor reviewed two investigative reports and determined a documented credibility assessment. The considerations for credibility were included as discussed throughout the investigative staff interviews and documented within the reports. This auditor provided recommendations to the investigative staff for future implementation and the reports were impressive during the on-site review. The evidence provided demonstrated full compliance with this practice. The agency SIA Investigator interview indicated the burden of proof for administrative investigations to be the preponderance of the evidence. The PREA Compliance Manager confirmed the policy is posted on the agency website and this was included in the facility Pre-Audit Questionnaire.

115.22 (c) Agency policy 5324.12 indicates the Federal Bureau of Investigation (FBI) shall conduct all criminal investigations of sexual abuse, sexual battery, and inmate sexual harassment. The Office of the Inspector General (OIG) will conduct staff criminal investigations. The information provided by the agency and facility indicates compliance with this standard. The auditor confirmed two allegations of sexual abuse were referred to the OIG or the FBI for criminal investigation during the past 12 months. These cases remain pending for review and the auditor was unable to review a final report.

115.22 (d) N/A

115.22 (e) N/A

Conclusion: Based on the evidence provided by the facility, the agency has a policy governing the investigations of allegations of sexual abuse and sexual harassment. The facility has a documented investigative policy and documents all reports of sexual abuse and sexual harassment. The facility provided the auditor with documentation of the investigations, including full investigative reports with findings. This auditor reviewed two investigative reports and determined a documented credibility assessment. The considerations for credibility were included as discussed throughout the investigative staff interviews and documented within the reports. This auditor provided recommendations to the investigative staff for future implementation and all reports were reviewed during the on-site review. The evidence provided demonstrated full compliance with this practice. The facility provided evidence of referrals of allegations of sexual abuse and sexual harassment. The agency policy is posted on the website, and it describes the investigative responsibilities of both the agency and the separate entities that conduct the criminal investigations on its behalf. The facility meets the provisions of this standard.

Standard 115.31 Analysis

The following evidence was analyzed in making compliance determinations:

Documents :

1. FPC Alderson Responses to the Pre-Audit Questionnaire
2. FPC Alderson October 28, 2017, PREA Audit Report
3. Agency policy 5324.12, Sexually Abusive Behavior Prevention and Intervention Program pages 1-62, June 4, 2015
4. PREA Sexually Abusive Behavior Prevention and Intervention Program Annual Training Documents
5. Annual Training 2020 Curriculum Lesson Plan, Sexually Abusive Behavior, and Intervention Program, 17 pages

Interviews:

1. 12 Random Staff
2. PREA Coordinator

3. Six Informal Staff Interviews
4. One Inmate that identifies as Transgender.
5. Facility Training Staff

Site Review Observations:

1. Reviewed 20 Staff Training Files
2. Reviewed 20 PREA Training and Understanding Verification Forms
3. Verified a list of all current staff training dates.

Findings by Provision:

115.31 (a) Agency policy 5324.12 includes the zero-tolerance toward sexual abuse and sexual harassment policy relating to staff training. This policy includes training requirements on how to fulfill their responsibilities for prevention, detection, reporting, and response. This policy includes all elements listed in section 115.31 (a) 1-10. The auditor conducted 12 Random staff interviews indicating significant knowledge regarding the zero-tolerance policy toward all forms of sexual abuse and sexual harassment, and the staff requirements toward prevention, detection, reporting, and response. The auditor reviewed the PREA Course Lesson Plan that lists the following performance objectives required within the training: The agency's zero-tolerance policy for sexual abuse and sexual harassment, staff responsibilities for prevention, detection, response, and reporting procedures, inmates' right to be free from sexual abuse and sexual harassment, inmate and staff retaliation standards, the dynamics of sexual abuse in confinement settings, victim behaviors, signs and symptoms of threatening behaviors, how to avoid inappropriate relationships, communication and understanding the linguistic, ethnic, or cultural differences, and how to report sexual abuse to outside authorities.

115.31 (b) This auditor reviewed the staff training curriculum to include rosters, power points, briefing rosters, lesson plans, and the Power Point training program. This program is a testing platform and specifically designed to provide the PREA training elements listed in 115.31 (a) 1-10. The facility trained all staff members in the last 12 months and provided roll call training rosters demonstrating PREA training across all shifts. The Agency training is tailored to the gender of the inmates at the facility to include male and female inmates and staff. The facility utilizes the National PREA Resource Center, The Moss Group, and the Bureau of Justice Assistance U.S. Department of Justice Guidance in Cross-gender and Transgender Pat Searches power point within their training curriculum. This auditor interviewed one inmate that identifies as transgender, and the interview information did not depict any concerns with cross-gender viewing or searches.

115.31 (c) The auditor reviewed a total of 20 staff training files. The documentation provided indicated all 20 staff received the initial and annual PREA training. A complete listing of all staff was provided by the PREA Compliance Manager to the auditor ensuring the training was received by all staff at the end of the on-site review. The Human Resource staff interview confirmed staff receive PREA training on an annual basis in the academy, on-line, during roll call briefings, and during in-service.

115.31 (d) The 12 random staff interviewed during the on-site review and six informal staff interviews indicated the inability of staff to properly identify the PREA Compliance Manager, PREA Investigator, and the PREA

Coordinator. This was addressed during the on-site review as the PREA Compliance Manager provided email notification to all staff and the information was provided during shift briefings.

Conclusion: Based on the review of the facility training policies, staff training curriculum, samples of the training records, and the documentation of the employees signatures signifying comprehension of the training received, the facility appears to meet compliance with this standard. No corrective action is required at this time.

Site Review Observations:

1. Reviewed Volunteer/Contractor/ Public Visitor Forms
2. Reviewed the facility Biometric process

Findings by Provision:

115.32 (a) Agency policy 5324.12 explains the zero-tolerance standard toward all forms of sexual abuse, sexual assault, and sexual harassment. The facility provides a volunteer and contractor lesson plan, Power point review, and a PREA test. This auditor reviewed the volunteer and contractor lesson plan, and the information includes the zero-tolerance policy, requirements for preventing, reporting, detection, response, and the discipline imposed for violations of this policy. The documentation provided by the facility indicates the volunteer and contractor signature understanding the training received. The auditor reviewed the PREA Information Acknowledgment form indicating they understand the training received. The auditor reviewed the PREA Lesson Plan Power Point provided by the PREA Compliance Manager, and the materials provide the discussion regarding the zero-tolerance standard.

The auditor reviewed the PREA Course Lesson Plan that lists the following performance objectives required within the training: The agency's zero-tolerance policy for sexual abuse and sexual harassment, staff

responsibilities for prevention, detection, response, and reporting procedures, inmates' right to be free from sexual abuse and sexual harassment, inmate and staff retaliation standards, the dynamics of sexual abuse in confinement settings, victim behaviors, signs and symptoms of threatening behaviors, how to avoid inappropriate relationships, communication and understanding the linguistic, ethnic, or cultural differences, and how to report sexual abuse to outside authorities. The volunteers and contractors are required to complete a written test and the auditor verified this process throughout the on-site review.

115.32 (b) FPC Alderson has 13 contractors and 16 volunteers assigned throughout the facility. However, no volunteers have been on-site in the past 12 months because of the COVID-19 virus. The level of training provided is based on the services they provide and the level of contact they have with inmates. Each contractor and volunteer must complete an application and a background check is completed. The application consists of the following information: personal information, current employment information, personally identifiable information, education, emergency contacts, criminal history, and previous institutional experience. Each volunteer and contractor are screened through the National Crime Information Center. All volunteers and contractors complete a screening process, and a badge identification system is conducted that authorizes the volunteer or contractor access to the facility.

115.32 (c) The auditor spoke with one Contractor and one volunteer that provided information relating to the training received, handbook notifications, and background questionnaires. All interviews indicated the ability to convey the zero-tolerance policy, preventive actions, notification procedures, and response practices. All interviews confirmed receipt of the PREA training. The facility volunteer coordinator provided documentation indicating all volunteers have received the PREA training and signed the notification indicating the volunteer understands the training received for 2020. Because of COVID 19, the volunteer training for 2020 was suspended. Additional efforts are being made to accommodate the volunteer training for 2021.

Conclusion: Based on the review of the evidence provided, the facility ensures all volunteers and contractors that have contact with inmates are trained on their responsibilities under the agency's sexual abuse and sexual harassment prevention, detection, and response policies and procedures. The level and type of training provided to volunteers and contractors is based on their level of contact with the inmates. The sample of volunteers and contractors interviewed indicated knowledge regarding the zero-tolerance policy and how to report any incidents. The agency maintains documentation confirming that all volunteers and contractors understand the training they have received. The volunteer coordinator acknowledges the importance of ensuring all facility databases are updated regarding the training certification. No corrective action is required regarding this standard.

2. Reviewed 21 Inmate Intake Files
3. Reviewed 21 PREA Comprehensive Education Signature Documents
4. Observed PREA Posters and Materials Posted in All Housing Units, Medical, and Programs (English/Spanish)

Findings by Provision:

115.33 (a-f) Agency policy 5324.12 discusses the inmate education requirements and includes elements (a-f) within the policy. The intake officer described the inmates receive an initial inmate handbook upon arrival to the intake section. This document includes the facility zero-tolerance policy, the inmates right to be free from sexual abuse, sexual assault, and sexual harassment. It also includes instructions on how to report an allegation by mail. The inmates can submit a request form, file a grievance to report allegations of sexual abuse, sexual assault, or sexual harassment. They can report to a staff member or notify staff by submitting an email to the staff they choose. The inmate handbook needs to be updated on the facility website and this was not completed prior to the conclusion of the audit.

Agency policy 5324.12 indicates within the first 30 days of intake additional PREA information will be provided to the inmate population. This information includes the inmates' right to be free from sexual abuse, sexual harassment, and retaliation. Department policies are introduced, response procedures, and directions on how to report an allegation is explained during the comprehensive review. The facility also proudly displays PREA posters, and one is displayed in the intake section regarding zero-tolerance. The intake staff are required to print an inmate orientation acknowledgement form and the inmates sign acknowledging they understand the training they have received. The auditor sampled 21 inmate files indicating receipt of the inmate handbook and the 30-day comprehensive education. The PREA Compliance Manager reported a total of 233 inmates admitted during the past 12 months, and 232 inmates received the comprehensive education within 30 days if the inmate stay is of 30 days or more. This information was confirmed by the PREA Compliance Manager during the on-site interview.

There are several reporting methods provided to the inmates and this is discussed in the inmate handbook. The inmate handbook is written in both English and Spanish formats. Posters are visible throughout the facility reminding inmates regarding zero-tolerance toward all forms of sexual abuse, sexual assault, and sexual harassment. The auditor interviewed 15 randomly selected inmates indicating PREA knowledge, expectations toward privacy, reporting mechanisms, retaliation monitoring, and pride in the overall safety of the facility. The inmate phones are equipped with a TTY system, the facility provides a language line for numerous languages and a list of certified staff interpreters. The facility employs staff to provide the information verbally to inmates that cannot read. The auditor interviewed one inmate with limited English proficiency and advised receiving PREA information on video and in documents they could read and understand.

Conclusion: The auditor has determined the agency has a policy governing PREA education for inmates. The auditor has also determined full compliance with this standard based on a review of the following evidence supplied by the facility: intake records of inmates entering the facility in the past 12 months, signed documents by the inmates indicating the understanding of the training received within 30 days of intake, confirmation of all inmates receiving the PREA information within one year of the effective date of the PREA standards, review of the inmate handbook, education materials in formats accessible to inmates that are limited English proficient, deaf, visually impaired, disabled or limited reading skills, and observations of materials posted throughout the facility in both English and Spanish formats. The facility has demonstrated compliance with this standard and no corrective action is requested at this time.

2. Reviewed One Facility Investigator Training File
3. Reviewed One PREA Training and Understanding Form
4. Reviewed Two PREA Investigative Files

Findings by Provision:

115.34 (a-d) Agency policy 5324.12 includes the specialized training requirements for the facility PREA investigators. The required training includes the following: interviewing sexual abuse victims, proper use of Miranda and Garrity warnings, sexual abuse evidence collection in confinement settings, and the criteria and evidence required to substantiate a case for administrative action and prosecution referral. The facility utilizes investigators from the Office of the Inspector General and the Federal Bureau of Investigation for all criminal investigations. The Special Investigative Services (SIS) and the Office of Internal Affairs (OIA) are assigned to conduct all administrative investigations. The auditor verified the facility PREA Investigators have received the specialized PREA training for investigators.

The Special Investigative Services Investigator interview indicated additional training is conducted on a continuous basis. This training provides the necessary elements required within this standard to include the following: interviewing sexual abuse victims, proper use of Miranda and Garrity warnings, sexual abuse evidence collection in confinement settings, and the criteria and evidence required to substantiate a case for administrative action and prosecution referral. The auditor reviewed the training outline and power points associated with this learning environment. This training identified the PREA standards that apply to investigating sexual abuse of inmates and demonstrated six critical investigative techniques and protocols of competent investigations. The facility maintains records of all training received and is easily accessible for review. Agency policy 5324.12 indicates training documentation will be maintained by the employee training files and documented on the PREA Training and Understanding Form.

Conclusion: Based on the review of the materials provided by the facility: the agency training policy for investigative staff, the investigator training curriculum, documentation that the agency investigators have completed the required training, and the training records and logs presented by the staff, the auditor finds the facility meets all provisions required within this standard. No further action is required at this time.

The following evidence was analyzed in making compliance determinations:

Documents :

1. FPC Alderson Responses to the Pre-Audit Questionnaire
2. FPC Alderson October 28, 2017, PREA Audit Report
3. Agency policy 5324.12, Sexually Abusive Behavior Prevention and Intervention Program pages 1-62, June 4, 2015

Interviews:

1. One Medical Staff
2. One Mental Health Staff
3. Zero Sexual Assault Nurse Examiner (SANE)

Site Review Observations:

1. Reviewed 21 medical staff training files

Findings by Provision:

115.35 (a-d) Agency policy 5324.12 explains the agency policy, procedures, and practice associated with this standard compliance, and requires all medical and mental health care practitioners to receive the required specialized PREA training. There is a total of 20 medical staff that work regularly in the facility and the training records indicated all staff have received the initial PREA orientation and the specialized training. The auditor reviewed the facility PREA Medical and Mental Healthcare Lesson plan that included the following topics: PREA medical and mental healthcare standards participant guide, lessons on how to detect and assess signs of sexual abuse and sexual harassment, how to preserve physical evidence of sexual abuse, how to respond effectively and professionally to victims of sexual abuse and sexual harassment, and whom to report allegations or suspicions of sexual abuse and sexual harassment. The auditor interviewed one medical staff, and one mental health staff and all interviews indicated knowledge regarding the specialized medical training.

The forensic medical exams are conducted at the Princeton Community Hospital. The auditor was unable to interview a SANE nurse from the hospital due to time constraints, effects of COVID-19, and a lack of a point of contact. The facility maintains documentation demonstrating the medical and mental health practitioners have completed and understand the training received. The one medical staff interview provided direct knowledge regarding how to detect and assess signs of sexual abuse and sexual harassment, how to preserve physical evidence of sexual abuse, how to respond effectively and professionally to victims of sexual abuse, and whom to report allegations or suspicions of sexual abuse and sexual harassment.

Conclusion: Based on the review of the following evidence: agency policy governing training of medical and mental health care practitioners, documentation showing the training has been received by all staff, a review of the training curriculum, signature indicating understanding of the training received, and confirmation of the medical staff training logs ensuring the staff have received the initial training for employees, contractors, and volunteers dependent upon their status, the auditor finds the facility meets all of the provisions required within this standard with compliance. No further action is required.

Site Review Observations:

1. Inmate Risk Screening Process
2. Inmate Risk Screening Reassessment Process
3. Intake and Classification Housing Assignment Review
4. Inmate File Reviews = 21
5. PREA Risk Assessment Tools

Findings (By Provision):

115.41 (a-I) Agency policy 5324.12 explains the screening procedures for risk of victimization and abusiveness. This policy explains all inmates are assessed during an intake screening for their risk of being sexually abused by other inmates or sexually abusive toward other inmates. Inmates will also be screened upon transfer to another facility for their risk of being sexually abused or sexually abusive toward other inmates. FPC Alderson utilizes the PREA Risk Assessment Tool to accomplish the risk screening process. This tool is utilized during the following procedures: the intake screening process, 20-30 days after receipt into the facility, or whenever an inmate is involved in an incident of sexual abuse, new information is provided within the inmate's history, and during the annual review.

The auditor observed the screening procedures during the on-site review within the initial receipt of the inmate population during the first 2 hours of arrival. The review was performed by the intake officer in a private office space with a secure workstation. The auditor also observed a reassessment being conducted by a unit team member in a private office space with a secure workstation within the housing unit. The auditor confirmed the reassessment was conducted within 28 days of the initial receipt of the inmate. Agency policy 5324.12 indicates this tool must be completed within the first 72 hours of intake to the facility. The auditor reviewed 21 inmate files and determined the intake screenings usually take place within the same day of arrival, and usually within the first two hours. This follows the 72-hour mandate required by the standard. The files reviewed consisted of 21 inmate assessments upon arrival within the first 72 hours, and 21 inmate reassessment files for allegations of sexual abuse. None of the 21 files reviewed indicated major concerns regarding the initial intake screening or the reassessment.

The facility utilizes an objective classification screening instrument that includes: an individual points system, yes and no responses, classification protocol, a classification questionnaire, a brief jail mental health screen, an inmate risks and needs assessment, and a PREA initial intake screening tool. The objective classification

screening includes the following criteria for the risk of sexual victimization: inmate mental, physical, developmental disabilities, age, physical build, previous incarcerations, criminal history, violent or nonviolent behaviors, prior sex convictions, whether the inmate is perceived gay, lesbian, bisexual, transgender, intersex, or gender nonconforming, previous sexual victimization, vulnerability perceptions, or if the inmate is detained solely for civil immigration purposes. The auditor observed the staff performing the risk screening to document the responses of the inmate. Staff indicated the scores also reflected the inmate's personal perceptions of themselves. The auditor reviewed this process with the staff assigned to conduct the screening and monitored the interview being conducted. The Bureau of Prisons utilizes the Unit Team for performing the risk screenings. The Unit Team consists of the following: Case Managers, Unit Counselors, and Unit Managers.

The objective classification system questionnaire also assesses inmates for the risk of being sexually abusive by including the following criteria: prior acts of sexual abuse, prior convictions for violent offenses, and history of prior institutional violence or sexual abuse. The auditor conducted an interview with the staff performing the screening and was advised, each inmate must be carefully screened, and every evaluation should be unbiased. The results of the screening should be based on the communication between the staff conducting the review and the inmate's own perceptions and responses to the questions. Agency policy 5324.12 indicates within 28 days of intake an inmate's risk level will be reassessed due to a referral, request, incident of sexual abuse, or receipt of additional information that bears on the inmate's risk of sexual victimization or abusiveness. Interviews conducted with 15 random inmates indicated this process was being applied as the inmates could explain the questions being asked by the facility staff. The inmates identified the Unit Team as conducting the initial assessment and the reassessment. This information is consistent with the agency policy previously discussed.

Agency policy 5324.12 indicates inmates will not be disciplined for refusing to answer, or for not disclosing complete information in response to the risk screening, and the facility considers these documents to be treated in a confidential nature. Select staff are authorized to view this data and the facility information technician must authorize usage on all electronic devices. The evidence provided indicates compliance with this standard and this was also confirmed with the PREA Compliance Manager interview. The staff interview advised a new reassessment would have to be uploaded to provide written changes to the responses. The PREA Compliance Manager interview indicated limited access to review these documents once they have been uploaded within the system. Access must be approved by the PREA Compliance Manager as advised by the Warden, and a password provided by the Computer Services Department. The Receiving and Discharge (R&D) Staff have access to the answers submitted on the risk screening and the staff utilize this document to assign the bed assignments.

Conclusion: Based on the review and analysis of all available evidence to include agency policy governing the screening of inmates upon admission to the facility or transfer to another facility, screening instruments to determine risk of victimization or abusiveness, and detainee records, the auditor has determined that the agency is fully compliant with this standard regarding inmate risk of victimization and abusiveness.

Standard 115.42 Analysis

The following evidence was analyzed in making compliance determinations:

Documents :

1. FPC Alderson Responses to the Pre-Audit Questionnaire
2. FPC Alderson October 28, 2017, PREA Audit Report
3. Agency policy 5324.12, Sexually Abusive Behavior Prevention and Intervention Program pages 1-62, June 4, 2015
4. Intake Screening Forms
5. Attachment A., PREA Intake Objective Screening Instrument, page 1, June 4, 2015
6. Bureau of Prisons Psychology Services Department Risk of Sexual Victimization Document, pages 1-2, September 10, 2020

Interviews:

1. PREA Coordinator
2. PREA Compliance Manager
3. One Staff Responsible for Risk Screening
4. One Inmate Identifying as Transgender
5. Facility Warden

Site Review Observations:

1. Reviewed the PREA Risk Screening Process
2. Reviewed the PREA Risk Screening Reassessment Process
3. Reviewed Inmate Files = 21
4. Reviewed the housing unit cell, shower, restroom, and bed accommodations

Findings (By Provision):

115.42 (a-g) Agency policy 5324.12 indicates the facility utilizes the information collected from the risk screenings to inform housing, bed, work, education, and program assignments with the goal of keeping separate those inmates at high risk of being sexually victimized from those at high risk of being sexually abusive. This information was confirmed during the interview with the facility PREA Compliance Manager as the staff advised all facility risk screenings are objective, case-by-case evaluations of the inmates with their own perceptions and views being considered. The views of the inmate are recognized along with the score provided by the staff on the risk assessment document. The intake screening staff interview indicated utilizing the risk screening instruments to ensure all bed assignments, work assignments, education, and program assignments are carefully reviewed to ensure potential abusers are not interacting with potential victims. The auditor was able to speak with one inmate that identifies as Transgender during the review. No concerns with the current housing were identified. The inmate agreed to the level of housing recommended by the facility and no further issues were discussed.

Agency policy 5324.12 indicates the facility will make individualized determinations on a case-by-case basis to ensure the inmates health, safety, and personal views are considered. Reassessments shall be conducted by the Unit Team within 28 days of the inmates arrival. Considerations for single cell housing or double cell housing will be determined using the risk assessment tool. The PREA Compliance Manager confirmed the Unit Team will review and recognize an imbalance of power within the cell assignment. This is performed during individual meetings, conversations, group activities, review of the disciplinary actions, and considerations based on the inmate's personal views. This was confirmed during the Unit Team interview, and all assessments will be documented on the PREA Risk Assessment Tool.

The facility utilizes an objective classification screening instrument that includes: an individual points system, yes and no responses, classification protocol, a classification questionnaire, a brief jail mental health screen, an inmate risks and needs assessment, and a PREA initial intake screening tool. The objective classification screening includes the following criteria for the risk of sexual victimization: inmate mental, physical, developmental disabilities, age, physical build, previous incarcerations, criminal history, violent or nonviolent behaviors, prior sex convictions, whether the inmate is perceived gay, lesbian, bisexual, transgender, intersex, or gender nonconforming, previous sexual victimization, vulnerability perceptions, or if the inmate is detained solely for civil immigration purposes.

The agency policy 5324.12 explains the departments approach to working with transgender and intersex inmates. Importantly, this policy explains the classification process and ensures the staff effectively interact professionally and respectfully toward this specialized population. The facility Unit Team works with the Psychology Services Department to develop a Plan of Action to prepare for intake and housing of transgender and intersex populations. The Unit Team consists of Case Managers, Unit Counselors, and the Unit Managers. Each inmate is considered on a case-by-case basis and the final determination is mandated by the facility Warden. A total of one inmate at FPC Alderson identifies as transgender and the auditor was able to interview one inmate from this special population. The auditor reviewed the following documents utilized to review the classification and housing assignments for this specific population: Risk Assessment Tool, Pre-Sentence Report (PSI), Bureau of Prisons Psychology Services Department Risk of Sexual Victimization Document, and the PREA Housing and Programming Decision Meeting Forms.

The facility site review provided the opportunity to confirm all inmate showers are conducted separately, shower doors are provided for privacy, and the 15 random inmate interviews and nine informal inmate

interviews concluded no issues reported due to other staff or inmates viewing the inmates while changing clothes, showering, or using the restrooms. The 12 random staff interviews advised no concerns with this type of issue reported. The video monitoring equipment did not indicate concerns regarding cross-gender viewing during episodes of undress or showering. This is especially important when unit staff are evaluating the housing considerations for transgender and intersex inmates as they are provided the opportunity to shower separately from other inmates. All showers are conducted separately, and inmates can purchase clothing items through commissary to assist with shower activities. The facility does not place lesbian, gay, bisexual, transgender, or intersex inmates in a dedicated housing facility, unit, or wing based on their status. This is strictly forbidden in policy 5324.12. The facility Warden interview confirmed there are no consent decrees regarding legislative action pertaining to restrictive housing considerations. The on-site review indicated special populations are not assigned to one housing unit as the auditor was able to interview inmates from all Housing units.

Conclusion: Based on the review and analysis of the following available evidence: agency policy governing the use of screening information, documentation of the use of screening, documentation of housing decisions, reassessments, and facility housing considerations for the special populations, the auditor has determined that the agency is fully compliant with this standard regarding inmate risk of victimization and abusiveness.

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's

conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

Standard 115.43 Analysis

The following evidence was analyzed in making compliance determinations:

Documents :

1. FPC Alderson Responses to the Pre-Audit Questionnaire
2. FPC Alderson October 28, 2017, PREA Audit Report
3. Agency policy 5324.12, Sexually Abusive Behavior Prevention and Intervention Program pages 1-62, June 4, 2015

6. Bureau of Prisons Psychology Services Department Risk of Sexual Victimization Document, pages 1-2, September 10, 2020

Interviews:

1. Facility Warden
2. Staff Supervising Inmates in Segregated Housing
3. Inmates in Segregated Housing for Risk of Suffering Sexual Abuse

Site Review Observations:

1. Inmate Case Files
2. Segregation Housing Records

Findings (By Provision):

115.43 (a-e) Agency policy 5324.12, pages 33-35 clearly define the information within this standard. Inmates at high risk of sexual victimization shall not be placed in involuntary segregated housing unless an assessment of all available alternatives has been made, and there are no other alternative means of separation. The inmate victim will not be held for more than 24 hours to complete the assessment. This policy was confirmed during the interview with the facility Warden. This policy allows for programming, privileges, education, and work opportunities to the extent possible. If the facility restricts access to these opportunities, the facility must

document this occurrence. The facility must ensure documentation exists reflecting the limitation, duration, and rationale for limitation. The FPC Alderson does not have a dedicated segregated housing area. The facility has three individual cells that have been used as an overnight hold to determine proper housing placement. No inmates in the past 12 months were identified to be housed in segregated housing involuntary. Agency policy 5324.12 indicated all reviews for inmates in segregation are conducted during the weekly Special Housing Unit meetings. Inmates at high risk for sexual victimization cannot be placed in involuntary segregated housing unless an assessment of all available alternatives has been made and a determination has been made that there is no available alternative means of separation from likely abusers.

Conclusion: Based on the review and analysis of all available evidence, the auditor has determined that the agency has a policy governing involuntary segregated housing for inmates at high risk for sexual victimization. The facility would conduct 30-day reviews and document accordingly. The auditor reviewed facility records of housing assignments and verified out-of-cell activities were not interrupted throughout this review as the facility does not have a dedicated segregated housing area. If the facility required immediate segregated housing an agreement would be established with the Southern Regional Jail. The auditor has determined the facility is fully compliant with the provisions of this standard.

1. FPC Alderson Responses to the Pre-Audit Questionnaire
2. FPC Alderson October 28, 2017, PREA Audit Report
3. Agency policy 5324.12, Sexually Abusive Behavior Prevention and Intervention Program pages 1-62, June 4, 2015

Interviews:

1. 12 Randomly Selected Staff
2. 15 Randomly Selected Inmates
3. Six Informal Staff Interviews
4. Nine Informal Inmate Interviews
5. PREA Compliance Manager
6. Facility Warden

Site Review Observations:

1. Reviewed the signs and posters throughout the facility
2. Confirmed the facility does not have a dedicated special housing area

Findings (By Provision):

115.51 (a-d) FPC Alderson provides multiple methods for inmates to privately report sexual abuse, sexual assault, sexual harassment, retaliation against reporting, staff neglect, and contributing factors to these incidents. These factors are described in agency policy 5324.12, pages 35-36 and they include: the facility allows for inmates to report abuse or harassment to a public or private entity by filing reports directly to the U.S. Department of Justice, Office of the Inspector General either electronically or in writing, report directly to a staff member, file an administrative remedy, email a staff member, or through request form. These reports are documented in writing immediately and forwarded to the facility PREA investigator for prompt review. All administrative investigations are conducted by the SIS or OIA, and all criminal investigations are conducted by the OIG or the FBI. The auditor interviewed 15 randomly selected inmates and conducted nine informal inmate interviews that concluded knowledge of this process.

FPC Alderson does not detain inmates solely for civil immigration purposes and this was confirmed by the PREA Compliance Manager, and the facility Warden interviews. However, steps are in place to conduct calls for immigration purposes and these calls are authorized at no cost to the inmate population if required. The auditor confirmed this statement was written in the facility handbook. All facility mail related to PREA is considered privileged correspondence and is treated in the same manner as legal materials. These items must be opened in front of the inmate and outgoing mail is not searched.

Agency policy 5324.12 requires all staff to report immediately any knowledge, suspicion, or information regarding an incident of sexual abuse or sexual harassment, retaliation against inmates or staff, and any staff neglect or violation of responsibilities that may have contributed to an incident or retaliation. This policy also advises the Warden or designee will monitor the conduct and treatment of inmates or staff who reported sexual

abuse or sexual harassment for at least 90 days. The Warden confirmed this monitoring period during the interview process. The Warden also confirmed any allegations reported by another facility or to another facility will be performed from the agency head to the other facility's agency head in writing. This information will then be passed on to the SIS/OIG promptly.

Conclusion: The auditor has reviewed all available information provided by the facility during the Pre-Audit, on-site review, and during the post-audit phase. The auditor has determined the facility has several internal methods for inmates to privately report all allegations of sexual abuse and sexual harassment. This includes internal methods to external entities. The facility accepts reports verbally, in writing, anonymously, and from a third-party. Inmates at FPC Alderson are not detained solely for civil immigration purposes and there is a system in place for free calls for civil immigration services if required. Therefore, the facility has met the requirements of this standard and no further action is required.

Standard 115.52: Exhaustion of administrative remedies

All Yes/No Questions Must Be Answered by the Auditor to Complete the Report

115.52 (a)

- Is the agency exempt from this standard? NOTE: The agency is exempt ONLY if it does not have administrative procedures to address inmate grievances regarding sexual abuse. This does not mean the agency is exempt simply because an inmate does not have to or is not ordinarily expected to submit a grievance to report sexual abuse. This means that as a matter of explicit policy, the agency does not have an administrative remedies process to address sexual abuse. Yes No

115.52 (b)

- Does the agency permit inmates to submit a grievance regarding an allegation of sexual abuse without any type of time limits? (The agency may apply otherwise-applicable time limits to any portion of a grievance that does not allege an incident of sexual abuse.) (N/A if agency is exempt from this standard.) Yes No NA

115.52 (c)

- Does the agency ensure that: An inmate who alleges sexual abuse may submit a grievance without submitting it to a staff member who is the subject of the complaint? (N/A if agency is exempt from this standard.) Yes No NA
- Does the agency ensure that: Such grievance is not referred to a staff member who is the subject of the complaint? (N/A if agency is exempt from this standard.) Yes No NA

115.52 (d)

- Does the agency issue a final agency decision on the merits of any portion of a grievance alleging sexual abuse within 90 days of the initial filing of the grievance? (Computation of the 90-day time period does not include time consumed by inmates in preparing any administrative appeal.) (N/A if agency is exempt from this standard.) Yes No NA
- If the agency claims the maximum allowable extension of time to respond of up to 70 days per 115.52(d)(3) when the normal time period for response is insufficient to make an appropriate decision, does the agency notify the inmate in writing of any such extension and provide a date by which a decision will be made? (N/A if agency is exempt from this standard.) Yes No NA
- At any level of the administrative process, including the final level, if the inmate does not receive a response within the time allotted for reply, including any properly noticed extension, may an inmate consider the absence of a response to be a denial at that level? (N/A if agency is exempt from this standard.) Yes No NA

115.52 (e)

- Are third parties, including fellow inmates, staff members, family members, attorneys, and outside advocates, permitted to assist inmates in filing requests for administrative remedies relating to allegations of sexual abuse? (N/A if agency is exempt from this standard.) Yes No NA
- Are those third parties also permitted to file such requests on behalf of inmates? (If a third-party files such a request on behalf of an inmate, the facility may require as a condition of processing the request that the alleged victim agree to have the request filed on his or her behalf, and may also require the alleged victim to personally pursue any subsequent steps in the administrative remedy process.) (N/A if agency is exempt from this standard.) Yes No NA
- If the inmate declines to have the request processed on his or her behalf, does the agency document the inmate's decision? (N/A if agency is exempt from this standard.) Yes No NA

115.52 (f)

- Has the agency established procedures for the filing of an emergency grievance alleging that an inmate is subject to a substantial risk of imminent sexual abuse? (N/A if agency is exempt from this standard.) Yes No NA
- After receiving an emergency grievance alleging an inmate is subject to a substantial risk of imminent sexual abuse, does the agency immediately forward the grievance (or any portion thereof that alleges the substantial risk of imminent sexual abuse) to a level of review at which immediate corrective action may be taken? (N/A if agency is exempt from this standard.) Yes No NA
- After receiving an emergency grievance described above, does the agency provide an initial response within 48 hours? (N/A if agency is exempt from this standard.) Yes No NA

- After receiving an emergency grievance described above, does the agency issue a final agency decision within 5 calendar days? (N/A if agency is exempt from this standard.)
 Yes No NA
- Does the initial response and final agency decision document the agency's determination whether the inmate is in substantial risk of imminent sexual abuse? (N/A if agency is exempt from this standard.) Yes No NA
- Does the initial response document the agency's action(s) taken in response to the emergency grievance? (N/A if agency is exempt from this standard.) Yes No NA

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

Standard 115.52 Analysis

The following evidence was analyzed in making compliance determinations:

Documents :

1. FPC Alderson Pre-Audit Questionnaire Responses
2. Agency policy 1330.18, Administrative Remedy Program, pages 1-16, January 6, 2014
3. FPC Alderson Inmate A&O Handbook, English/Spanish, February 2021

4. Inmate Grievance Forms
5. PREA Compliance Manager Information Tracking Log

Interviews:

1. PREA Compliance Manager
2. 15 Randomly Selected Inmates
3. 12 Randomly Selected Staff

Site Review Observations:

1. Grievance forms are readily available to the inmate population in all housing units.
2. Reviewed the Inmate Grievance Log

Findings (By Provision):

115.52 (a-g) Agency policy 1330.18 describes the grievance procedure for dealing with inmate grievances regarding sexual abuse. Agency policy advises, Inmates shall utilize the inmate grievance system to report sexual abuse or sexual harassment by a staff member or inmate-on-inmate sexual abuse, as defined in the Glossary of Terms for this procedures manual. However, an inmate may file a grievance related to staff-on-inmate sexual abuse/sexual harassment or inmate-on-inmate sexual abuse, the Facility Grievance Coordinator shall forward the grievance to the Special Investigative Services (SIS) or Office of Internal Affairs for tracking and investigation. The inmate shall be notified of this action. The Institution PREA Compliance Manager reports that the SIS/OIA will be responsible for notifying the Federal Bureau of Investigation for any actions resulting in a potential criminal investigation.

The facility reported no allegations of sexual abuse submitted through the grievance process in the last 12 months. Interviews with the PREA Compliance Manager revealed that while the grievance process is set up for reporting allegations of sexual abuse and sexual harassment, in the instances such allegations are received through this channel, they are forwarded to the Special Investigative Services (SIS) or the Office of Internal Affairs for immediate investigation. Agency policy 1330.18 advises the Inmate Grievance System is intended to deal with a wide range of issues, procedures, or events that may be of concern to an inmate. It is meant to address incidents of an urgent or emergency nature including allegations of sexual abuse. Any allegation of a sexual nature (abuse/harassment) against a staff member or inmate-on-inmate sexual abuse must be addressed through Department policy. When faced with an incident of an urgent or emergency nature, the inmate shall contact the nearest staff member for immediate assistance.

The auditor reviewed the inmate handbook, and the inmate grievance system is listed as an available method of reporting allegations of sexual abuse, sexual assault, or sexual harassment. The auditor conducted 12 interviews with randomly selected staff, and these interviews indicated knowledge of the inmates being allowed to submit grievances regarding sexual abuse. The auditor conducted interviews with 15 randomly selected inmates and several of the inmates indicated they could submit a grievance to notify the staff of an allegation of sexual

abuse. Agency policy 1330.18 explains the response to all inmate grievances related to sexual abuse is immediate and a final decision will be made within 24 hours. All facility grievances are returned with a response to the inmate within 3 days and the inmate has an opportunity to appeal the decision to the facility Warden. The final decision must be returned within 5 days.

Conclusion: FPC Alderson recognizes the inmate grievance system may be used as a method of reporting allegations of sexual abuse. However, all grievances received relative to sexual abuse will be forwarded to the facility Special Investigative Services (SIS) or the Office of Internal Affairs for immediate investigation. The facility has a policy to ensure grievances alleging sexual abuse or sexual harassment are forwarded for investigation. Inmates are informed the proper ways to submit grievances in the inmate handbook, comprehensive education, and through educational posters. The Auditor determined the facility meets the requirements of this standard as its policy is to forward all grievances alleging sexual abuse and sexual harassment immediately to the Special Investigative Services or the Office of Internal Affairs for investigation.

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

Standard 115.53 Analysis

The following evidence was analyzed in making compliance determinations:

Documents :

1. FPC Alderson Responses to the Pre-Audit Questionnaire
2. FPC Alderson October 28, 2017, PREA Audit Report
3. Agency policy 5324.12, Sexually Abusive Behavior Prevention and Intervention Program pages 1-62, June 4, 2015
4. FPC Alderson Inmate Handbook, English/Spanish, February 2021
5. Zero-tolerance Poster, English/Spanish, pages 1-2.
6. Memorandum of Understanding, Family Refuge Center, Five Pages, January 9, 2020

Interviews:

1. 15 Random Inmates
2. Inmates Who Reported Sexual Abuse
3. Facility Warden
4. PREA Compliance Manager

Site Review Observations:

1. Verified all third-party reporting materials are posted in the inmate Housing units in both English and Spanish.
2. Verified telephone and mail monitoring notices are posted in the inmate housing units in both English and Spanish.
3. Tested the helpline numbers/emails for adequacy and received confirmation.

Findings (By Provision):

115.53 (a-c) Agency policy 5324.12 advises the PREA Compliance Manager shall ensure that inmates are offered and provided with access to outside victim advocates for emotional supportive services related to sexual abuse which has occurred in a confinement setting. During non-working hours, the Operations Lieutenant shall be responsible to ensure the support services in FPC Alderson are available. Supportive services may be provided via a variety of methods including in person, during a non-monitored phone call, and/or in writing. The PREA Compliance Manager shall inform inmates, prior to giving them access, of the extent to which such communications will be monitored and the extent to which reports of abuse will be forwarded to authorities in accordance with mandatory reporting laws. The facility shall ensure that if facility phones or public pay phones within the facility are monitored, that the level of monitoring is clearly posted next to the phone. This shall be posted in English and Spanish, and if the facility monitors mail, the level of monitoring must be clearly posted in the facility handbook and bulletin boards.

Agency policy 5324.12 includes the information regarding outside victim advocates for emotional support services relating to sexual abuse, sexual assault, and sexual harassment. FPC Alderson utilizes the services of the Family Refuge Center, a nonprofit organization providing confidential services to persons through counseling, preventive education, and advocacy. FPC Alderson also enlists the services of the Office of the Inspector General to provide an outside reporting mechanism for inmates. This is accomplished by inmates writing a letter to access the services and provide notifications or by email to leave a message. The auditor reviewed the documents for clarity and all signatures are current and binding. The Family Refuge Center information is provided to the inmates by the Operations Lieutenant and the information is provided on the PREA handout. The auditor confirmed the facility provides the name and address, at no cost to the inmate and these services are confidential.

FPC Alderson does not detain persons solely for civil immigration purposes, but the auditor observed the English and Spanish Department of Justice notification posting along with phone numbers for the consulate services in the inmate handbook. The auditor confirmed the facility provides persons detained solely for civil immigration purposes mailing addresses and telephone numbers, including toll-free helpline numbers where available of local, State, or national immigrant services agencies. This information was confirmed during the facility Warden interview. The 12 random staff interviewed were able to identify the Office of the Inspector General as an option for confidential reporting services. A total of 15 random inmate interviews, and inmate interviews that have reported sexual assault allegations, indicated knowledge of the available outside services, identified the address, and the poster. The inmates reported feeling confident these services would be useful, but no inmates advised attempts to contact the address.

Conclusion: Based on the review of all evidence supplied by the facility to include: agency policy regarding an outside victim advocate for emotional support and services, a policy describing one method for inmates to

report anonymously, a policy regarding inmates being detained solely for immigration purposes, a policy for staff to privately report, accepting reports from inmates in writing, and inmate handbooks, the auditor has determined the facility meets the substantial requirements of this standard. No further action is required at this time.

The following evidence was analyzed in making compliance determinations:

Documents :

1. FPC Alderson Responses to the Pre-Audit Questionnaire
2. FPC Alderson October 28, 2017, PREA Audit Report
3. Agency policy 5324.12, Sexually Abusive Behavior Prevention and Intervention Program pages 1-62, June 4, 2015
4. FPC Alderson Inmate Handbook, English/Spanish, February 2021

5. Zero-tolerance Poster, English/Spanish, pages 1-2.

Interviews:

1. PREA Compliance Manager
2. 15 Random Inmates
3. Nine Informal Inmate Interviews

Site Review Observations:

1. Identified the PREA posters in both Spanish/English format indicating the third-party reporting address
2. Reviewed the agency website for the third-party reporting information

Findings (By Provision):

115.54 (a) The facility has established a procedure to receive third-party reports of sexual abuse and sexual harassment. This is described in the agency policy 5324.12. This information is also published on the facility's website and the notification process is to call or write a letter to the third-party reporting agency. There are posters throughout the facility such as: inmate housing units, medical, programs, visitation, and intake regarding third-party reporting and the address required to file the complaint. The inmates are provided an address and phone number to contact the Office of the Inspector General, notify the Department of Justice Sexual Abuse Reporting Mailbox (TRULINCS) email notification, and contact the Family Refuge Center. This information is posted in the inmate handbook, and signs posted near the inmate phones in all housing Units. The 15 random and nine informal inmate interviews indicated knowledge of the third-party reporting methods and inmates advised they felt comfortable reporting all allegations of sexual harassment.

Conclusion: Based on the evidence provided, the auditor was able to determine the facility provides publicly distributed information on how to report inmate sexual abuse or sexual harassment on behalf of inmates.

1. FPC Alderson Responses to the Pre-Audit Questionnaire
2. FPC Alderson October 28, 2017, PREA Audit Report
3. Agency policy 5324.12, Sexually Abusive Behavior Prevention and Intervention Program pages 1-62, June 4, 2015

6. Incident Reports Relating to Sexual Abuse
7. Incident Reports Relating to Sexual Harassment

Interviews:

1. 12 Randomly Selected Staff
2. Six Informal Staff
3. Facility Warden
4. PREA Compliance Manager
5. One Medical Staff
6. One Mental Health Staff

Site Review Observations:

1. Reviewed Investigative Files
2. Reviewed Incident Reports
3. Reviewed Allegations of PREA Reports Referred to the PREA Investigator

4. Compared the dates received to the date the investigation began

Findings (By Provision):

115.61 (a-e) Agency policy 5324.12 describes the agency requirements for all staff to report any knowledge, suspicion, or information regarding an incident of sexual abuse or sexual harassment immediately. The policy also requires the staff to report any knowledge of retaliation against inmates or staff who reported incidents and staff neglect that may have contributed to an incident or retaliation. This was confirmed during the interview with the facility Warden and the PREA Compliance Manager. The auditor verified this process during the 12 random staff and six informal staff interviews as staff conveyed the directive to notify a supervisor immediately. The staff also identified the Special Investigative Services (SIS) as the primary source for conducting PREA investigations. Policy 5324.12 indicates apart from reporting to designated supervisor or officials, staff shall not reveal any information related to a sexual abuse, report to anyone other than to make treatment, investigation, and other custody and management decisions. The auditor interviewed 12 random staff indicating knowledge of this policy and the mandatory reporting requirements.

FPC Alderson does not house youthful inmates as confirmed during the census report review. Agency policy 5324.12 advises if the alleged victim is under the age of 18 or over the age of 60, the facility shall refer the allegation to the designated State or local services agency under applicable mandatory reporting laws. The auditor interviewed one medical staff and one mental health staff and both interviews indicated knowledge regarding mandatory requirements as one medical staff member advised she will always report an allegation to her supervisor and the Operations Lieutenant. Agency policy 5324.12 indicates all reports received by the Sexual Abuse Reporting Address, established for the third-party and anonymous reporting of sexual abuse or sexual harassment are reported to the SIS/OIA immediately. During the on-site review, the auditor reviewed investigative files, incident reports relating to a sexual abuse allegation, and incident reports relating to a sexual harassment allegation. The auditor did not find any concerns relating to a delayed investigation. All investigations began either the same day or the next working day.

Conclusion: Based on the evidence provided by the facility, the auditor determined the Agency has relevant policies governing the reporting by staff regarding incidents of sexual abuse or sexual harassment, and the reporting by the facility regarding all allegations of sexual abuse and sexual harassment to designated investigators. The facility medical staff indicated no limits toward confidentiality regarding the reporting of sexual abuse, sexual assault, or sexual harassment allegations as all staff interviewed advised reporting to the Operations Lieutenant immediately. The facility does not house youthful inmates and the agency policy mandates reporting to the designated State and local services for an alleged victim under the age of 18, or over the age of 60 who are considered a vulnerable adult under a State or local vulnerable persons statute. The auditor reviewed samples of the reports provided by investigators and determined all investigations began immediately. The facility meets the provision requirements of this standard and no further action is required.

3. Zero Inmates in Segregation for High Risk of Sexual Abuse

Site Review Observations:

1. File review indicated inmate behavior concerns as opposed to high risk for sexual victimization
2. Reviewed PREA Allegations and Bed Moves Reports

Findings (By Provision):

115.62 (a) Agency policy 5324.12 ensures that when facility staff learn that an inmate is subject to a substantial risk of imminent sexual abuse, appropriate and immediate action shall be taken to protect the inmate. Alleged inmate victims of sexual abuse shall receive timely, unimpeded access to emergency medical treatment and crisis intervention services, the nature and scope of which are determined by medical and mental health practitioners according to their professional judgment. If no qualified medical or mental health practitioners are on duty at the time a report of recent abuse is made, custody staff first responders shall take preliminary steps to protect the alleged victim. The facility Warden indicated steps are taken immediately to protect the inmate victim or others, but the action must be reviewed within 24 hours by the Unit Team. The Warden interview determined the facility takes all allegations seriously and any inmate subject to imminent sexual abuse will receive immediate action. The facility reported zero incidents in the past 12 months that determined an inmate was subject to a substantial risk of imminent sexual abuse. The facility has holding cells that are utilized temporarily to determine housing concerns. The facility has an agreement with the Southern Regional Jail to house inmates for segregation concerns. However, the facility utilizes classification decisions to house inmates in separate units as opposed to segregation.

Conclusion: The auditor determined the agency has a policy governing the facilities protection duties when inmates are subject to a substantial risk of imminent sexual abuse. The auditor reviewed relevant documentation related to the determination of inmate's substantial risks and the agency's response. This includes medical requirements, investigator requirements, and the relevant views of the facility leadership toward compliance. Based on the review of all evidence provided the facility meets the provision of this standard. No further action is required.

The facility Warden indicated he would personally contact the Warden at the facility where the abuse occurred, and she would expect the other facility to return the same courtesy. The agency policy 5324.12 indicates the documented notification will occur within 72 hours and must be documented in the PREA Tracking System (PTS). FPC Alderson has reported zero allegations of sexual abuse to other facilities in the past 12 months. However, once the notification is received all information will be forwarded to the SIS/OIA for an immediate response to begin an investigation.

FPC Alderson has not received any allegations of sexual abuse from other facilities in the past 12 months. Standard 115.64 Analysis

The following evidence was analyzed in making compliance determinations:

Documents :

1. FPC Alderson Responses to the Pre-Audit Questionnaire
2. FPC Alderson October 28, 2017, PREA Audit Report
3. Agency policy 5324.12, Sexually Abusive Behavior Prevention and Intervention Program pages 1-62, June 4, 2015

Interviews:

1. One Non-Custody Staff First Responder
2. One Custody Staff First Responder
3. Inmate Who Reported Sexual Abuse
4. 12 Random Staff

Site Review Observations:

1. Reviewed the Initial Response Checklist for the victim and the abuser
2. Reviewed the Emergency Response Card being utilized by the staff

Findings (By Provision):

115.64 (a-b) Agency policy 5324.12 describes the staff first responder duties. The policy indicates the staff responsibilities for custody and non-custody employees. The directives for the custody staff include the following four step action plan: separate the alleged victim and abuser, preserve, protect the scene, collect the evidence if time is allotted, and do not allow the victim or abuser to participate in any activities that may destroy evidence such as: washing, brushing teeth, changing clothes, urinating, defecating, smoking, or eating. If the first responder is a non-custody staff member, the responder shall be required to request that the alleged victim not take any actions that could destroy physical evidence and notify a custody staff member immediately. The auditor interviewed one inmate who reported an allegation of sexual abuse, and the inmate indicated a feeling that the staff respected the incident and kept them safe from their abuser. The facility reported 4 allegations of sexual abuse within the past 12 months, 4 cases that involved the separation of the victim and the abuser, 0 cases where physical evidence was collected, and the staff informed the inmates to not make any attempts to destroy the physical evidence.

The auditor concluded staff knowledge regarding these actions throughout the facility as the auditor interviewed one custody staff designated as a first responder, and one non-custody staff. The common response was to notify a supervisor immediately and follow the four-step action plan. The action plan was also noted in the employee handbook, staff training curriculum, and verified during the Warden interview. The auditor interviewed 12 random staff members, and all 12 were able to convey the action plan steps required within the policy to provide an immediate response. The staff also carry emergency response cards that indicate the four-step action plan. The auditor observed the staff carrying these cards throughout the on-site review. The auditor reviewed one Initial Response Checklist for the alleged victim and one Initial Response Checklist for the alleged abuser that included the 4-step action plan.

Conclusion: The agency has a policy governing the staff first responder duties to include a custody and non-custody staff response. The policy mandates the four-step action plan previously mentioned within the body of the narrative. The auditor reviewed documentation and interviews indicating full compliance with this standard. No further action is required by the facility as they have met substantial compliance.

Interviews:

1. Facility Warden

2. PREA Coordinator
3. 12 Random Staff
4. Six Informal Staff Interviews

Site Review Observations:

1. Reviewed the First Responder Duty Cards

Findings (By Provision):

115.65 (a) FPC Alderson has a written plan to coordinate actions for all staff during reported allegations of sexual abuse, sexual assault, and sexual harassment. The action plan describes the procedures for the following participants: volunteers and contractors, support staff, custody staff, Operations Lieutenant, shift supervisors, first responder duties, medical and mental health practitioners, investigators, and facility leadership. The facility plan documented provides detailed actions for providers, and the staff were able to convey their specific duties during the 12 random and six informal staff interviews. The facility Warden and the PREA Compliance Manager interviews indicated reminders to staff regarding their specific duties annually and the auditor reviewed this information within the training plan.

Conclusion: FPC Alderson has a facility institutional response plan to coordinate actions taken in response to an incident of sexual abuse, among staff first responders, medical and mental health practitioners, investigators, and facility leadership. The auditor reviewed documents and conducted staff interviews to measure the effectiveness of the written plan. Based on the evidence provided by the facility, compliance was indicated, and no further action is required.

Standard 115.66: Preservation of ability to protect inmates from contact with abusers

All Yes/No Questions Must Be Answered by the Auditor to Complete the Report

115.66 (a)

- Are both the agency and any other governmental entities responsible for collective bargaining on the agency's behalf prohibited from entering into or renewing any collective bargaining agreement or other agreement that limits the agency's ability to remove alleged staff sexual abusers from contact with any inmates pending the outcome of an investigation or of a determination of whether and to what extent discipline is warranted? Yes No

This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

Standard 115.66 Analysis

The following evidence was analyzed in making compliance determinations:

Documents :

1. FPC Alderson Responses to the Pre-Audit Questionnaire
2. FPC Alderson October 28, 2017, PREA Audit Report
3. Agency policy 5324.12, Sexually Abusive Behavior Prevention and Intervention Program pages 1-62, June 4, 2015
4. Master Agreement, Federal Bureau of Prisons and the Council of Prison Locals American Federation of Government Employees, pages 69-70 of 98, July 21, 2014 – July 20, 2017

Interviews:

1. Facility Warden
2. PREA Compliance Manager

Findings (By Provision):

115.66 (a) FPC Alderson has not entered into any agreement that limits the agency's ability to remove alleged staff sexual abusers from contact with inmates pending the outcome of an investigation or of a determination of whether and to what extent discipline is warranted. In deciding to suspend an employee pending investigation, the agency must be able to demonstrate that the "nature of the allegation" is such that there is cause to remove the employee from the institution pending investigation and not that the employee committed the offenses. The FLSA regulations, for exempt employees, permit suspensions of less than a full workweek for violations of

written workplace policies applicable to all employees. This provision applies to generally applicable written work rules which prohibit serious workplace misconduct, which includes, but is not limited to, workplace violence, sexual abuse, sexual harassment, substance abuse, internet access policies, Code of Ethics violations, or violations of state or federal law. Discipline for these infractions should be consistent with the Collective Bargaining Agreement as indicated in the Master Agreement. The Collective Bargaining process in the Bureau will be completed pursuant to Title 5 of the United States Code, and all other applicable laws, rules, and regulations, including third-party appeals.

Conclusion: The auditor reviewed the evidence provided by the facility and found no evidence to deny satisfactory compliance toward this standard. These documents do not limit the agency's ability to remove alleged staff sexual abusers from contact with any inmates pending the outcome of an investigation or of a determination of whether and to what extent discipline is warranted. The facility Warden interview confirmed this process and indicated disciplinary action will be followed by notification to the Office of the Inspector General and the FBI for criminal acts and certifying bodies for certification review.

Documents :

1. FPC Alderson Responses to the Pre-Audit Questionnaire
2. FPC Alderson October 28, 2017, PREA Audit Report

2. One Staff Member Assigned to Monitor Retaliation
3. One Inmate who Reported Sexual Abuse
4. Zero High Risk of Sexual Victimization Inmates
5. 12 Random Staff
6. 15 Random Inmates
7. PREA Compliance Manager

Site Review Observations:

1. Reviewed investigative report templates
2. Reviewed retaliation monitoring forms

Findings (By Provision):

115.67 (a-e) The agency has established a policy to protect all inmates and staff who report sexual abuse or harassment or cooperate with sexual abuse or sexual harassment investigations from retaliation, and this is described in agency policy. The agency shall protect all inmates and staff who report sexual abuse or sexual harassment or cooperate with sexual abuse or sexual harassment investigations from retaliation by other inmates or staff. For at least 90 days following a report of sexual abuse or sexual harassment, the PREA Compliance Manager and the Unit Teams shall monitor the conduct and treatment of third-party reporters and any other individual who cooperates with an investigation.

The facility PREA Compliance Manager is the designated staff member charged with monitoring possible retaliation and this position serves as the facility Associate Warden. This position is provided the necessary support by the Warden, and the interview process indicated an active role toward retaliation monitoring advising this is an ongoing process.

The facility attempts to employ multiple protection measures by monitoring housing changes, transfers for inmate victims and abusers, removal of staff through termination, emotional support services, monitoring the inmate and staff performance evaluations, disciplinary actions, unannounced lockdowns, denial of privileges, grievances, and the inmates are provided with materials to assist the communication process. Literature is posted in the inmate handbook, posters, and methods of reporting retaliation described in the daily inmate education. The Warden interview indicated additional reviews may be considered once the 90-day review has concluded.

Random interviews with 12 staff members and 15 random inmates indicated no cause for concern with retaliation. The auditor interviewed the PREA Compliance Manager, one inmate that previously reported sexual abuse, zero inmates identified as high risk for sexual victimization, and no interviews indicated retaliation concerns. The facility reported zero allegations of retaliation in the past 12 months, and the classification files documented the 90-day review. All reviews indicated no concerns regarding retaliation; however, there was a slight delay in the initiation of the process. The PREA Compliance Manager recognized the issue and corrected the process toward future implementation.

Conclusion: FPC Alderson has an agency policy protecting all inmates and staff who report sexual abuse or sexual harassment or cooperate with sexual abuse or sexual harassment investigations from retaliation. This extends from retaliation from inmates or staff and includes the monitoring of inmates and staff following a report, and the agency response to the suspected retaliation. The auditor reviewed documentation and interviews to support these findings and the auditor finds the facility has met the provisions of this standard with compliance. No further action is required.

The following evidence was analyzed in making compliance determinations:

Documents :

1. FPC Alderson Responses to the Pre-Audit Questionnaire
2. FPC Alderson October 28, 2017, PREA Audit Report
3. Agency policy 5324.12, Sexually Abusive Behavior Prevention and Intervention Program pages 1-62, June 4, 2015
4. Agency Form BP-A1002, Safeguarding of Inmates Alleging Sexual Abuse/Assault Allegation, page1, May 2015
5. Warden Memorandum for PREA File

Interviews:

1. Facility Warden
2. Staff Supervising Segregated Housing
3. Zero Inmates in Segregated Housing

Site Review Observations:

1. Reviewed records and documentation of housing assignments of inmates who alleged to have suffered sexual abuse.

2. Reviewed if the facility restricts access to programs, privileges, education, or work opportunities.
3. Reviewed records for length of placement in segregated housing for those who alleged to have suffered sexual abuse.
4. Reviewed case files of inmate who was transferred to Southern Regional Jail

Findings (By Provision):

115.68 (a) Agency policy 5324.12, pages 33-35 clearly define the information within this standard. Inmates at high risk of sexual victimization shall not be placed in involuntary segregated housing unless an assessment of all available alternatives has been made, and there are no other alternative means of separation. The inmate will not be held for more than 24 hours to complete the assessment. Adherence to the guidelines set forth in policy 5324.12 of this procedures manual shall occur when inmates are at a high risk for sexual victimization or inmates who have alleged sexual abuse are involuntarily placed into Protective Custody (PC) after a determination has been made that no other available alternative means of separation exist from likely abusers. The Program Statement Sexually Abusive Behavior Prevention & Intervention Program requires staff to immediately safeguard an inmate victim when sexually abusive behaviors have been reported. Accordingly, staff should assess and consider all appropriate alternatives for safeguarding alleged inmate victims. Placing an inmate in protective custody or transferring the inmate to another federal, state, or local prison remain viable options to safeguard an inmate. However, staff must first consider other alternatives based on the circumstances of the allegation.

This policy was confirmed during the interview with the facility Warden. This policy allows for programming, privileges, education, and work opportunities to the extent possible. The FPC Alderson does not have a special housing unit currently. The facility has an agreement with the Southern Regional Jail to house inmates that need an immediate transfer for safe keeping. One inmate was identified in the past 12 months that requiring housing in this capacity. The auditor determined this inmate was placed in general population at the Southern Regional Jail. If this occurs in a segregated housing platform, the initial review would be conducted within 24 hours. The inmates would be reassigned to general population. The facility would document the privileges such as recreation, education, and programming. The inmate may not be authorized work opportunities due to behavior concerns and this would be documented on the segregation forms.

Conclusion: The agency has a policy governing the use of segregated housing to protect an inmate victim who is alleging to have suffered sexual abuse. The auditor reviewed the facility evidence provided, interviews, and on-site compliance determinations. Based on the evidence provided the facility demonstrates compliance to all provisions within this standard. No further action is required.

2. Inmates who Reported Sexual Abuse
3. Facility Warden
4. PREA Coordinator
5. PREA Compliance Manager

Site Review Observations:

1. Reviewed Case Files
2. Reviewed Investigative Reports

Findings (By Provision):

115.71 (a-l) The Office of the Inspector General, and the Federal Bureau of Investigation conducts all criminal investigations regarding allegations of sexual abuse, sexual battery, staff sexual misconduct, and sexual harassment for the Federal Bureau of Prisons as required in agency policy 5324.12, pages 41-43. This information was confirmed during the investigator interview. Agency policy requires the investigations to be conducted promptly, thoroughly, and objectively for all allegations of sexual abuse, sexual assault, and sexual harassment. The auditor reviewed two investigative reports to include reports from the third-party allegations and two cases are still active pending review and prosecution referral. The facility reports zero substantiated allegations of sexual abuse or sexual harassment during the past 12 months.

Agency policy 5324.12 requires the agency use investigators who have specialized training in sexual abuse investigations. This training includes interviewing sexual abuse victims, proper use of Miranda and Garrity warnings, sexual abuse evidence collection in confinement settings, and the criteria and evidence required to substantiate a case for administrative action or prosecution referral. The Office of Internal Affairs will prepare compelled interviews and communicate all activities with the Office of the Inspector General and the Federal Bureau of Investigation. The compelled interviews would be conducted while moving forward throughout the investigative process and truth-telling devices, such as a polygraph, would not be utilized strictly to continue the investigation. The auditor verified two investigators have received the specialized PREA investigator training. All investigative records reviewed by the auditor were conducted by trained investigators.

This auditor reviewed investigative reports and determined no concern with the documented credibility assessment. The considerations for credibility are included as discussed throughout the investigative staff interviews and the auditor recommended further inclusion within the report. The staff interviews indicated knowledge regarding securing the scene and allowing the trained evidence collection team to collect all evidence throughout the investigation. A criminal case will be consulted with the local prosecutor and the administrative case will be directed back to the facility Warden for administrative action. The Warden will consult with the investigator to determine if staff actions or failure to act contributed to the incident. The after-action review committee will make a final determination regarding staff actions and note a final decision within the report. All cases will be reviewed, and determinations made based on the following: written reports, physical and testimonial evidence, credibility assessments, and the investigative facts and findings. All investigations are documented in a written report and maintained for as long as the alleged abuser is incarcerated or employed by the agency, and then five years thereafter.

Agency policy 5324.12 explains the departure of the alleged abuser or victim from the employment or control of the agency does not provide a basis for terminating the investigation. All parties will cooperate with the investigation and outside licensing bodies will be notified. This was confirmed during the investigator and Warden interviews.

Conclusion: FPC Alderson has an agency policy related to the handling of criminal and administrative agency investigations in cases where sexual abuse is alleged. The auditor reviewed all evidence provided, reviewed case files, conducted interviews, and reviewed a sample of the retained investigations. The considerations for credibility are included as discussed throughout the investigative staff interviews, and continued efforts to document within the reports. The evidence provided demonstrated full compliance with this practice. The auditor finds FPC Alderson meets the provisions of this standard and no further action is required.

Findings (By Provision):

115.72 (a) Agency policy 5324.12 requires the facility shall impose no standard higher than a preponderance of the evidence in determining whether allegations of sexual abuse or sexual harassment are substantiated. The interview with the SIS Investigator revealed the facility standard is preponderance of the evidence. This evidence was verified through monitoring the results of two total investigations conducted. The auditor reviewed investigative files that included, two closed cases, two pending allegations that are pending prosecution referral. The facility reported zero substantiated allegations.

FPC Alderson reported the following allegations and results data for the past 12 months:

During the past 12 months, there have been four reports of sexual abuse and/or sexual harassment by inmates at FPC Alderson. Of these cases, two were determined to be Unsubstantiated, and two cases remain open for review.

Conclusion: The agency has a policy imposing a standard of preponderance of the evidence or a lower standard of proof for determining whether allegations of sexual abuse or sexual harassment is substantiated. Based on the evidence provided, the auditor has determined compliance with the provisions of this standard. No further action is required.

Site Review Observations:

1. Reviewed Case Files

3. Reviewed Inmate Notifications

Findings (By Provision):

115.73 (a-e) Agency policy 5324.12 reports following an investigation into an inmate’s allegation of sexual abuse, the agency must inform the inmate as to whether the allegation has been determined to be substantiated, unsubstantiated, or unfounded. The auditor reviewed a documented investigation and written notification to the inmate was provided as an unsubstantiated complaint. The PREA Compliance Manager reported four investigations conducted in the last 12 months and two notifications were documented as issued to the inmate. Two allegations remain pending with the Office of Internal Affairs for a pending prosecution referral.

FPC Alderson reported the following allegations and results data for the past 12 months:

During the past 12 months, there have been four reports of sexual abuse and/or sexual harassment by inmates at FPC Alderson. Of these cases, two were determined to be Unsubstantiated, and two remain open for review.

Agency policy requires if the allegation is that a staff member has committed sexual abuse against the inmate, the agency shall subsequently inform the inmate whenever the staff member is no longer posted in the inmate’s unit, no longer employed at the facility, indicted on a charge, or been convicted on a charge related to sexual

abuse. The PREA policy reflects these steps are not required if the results of the allegation are unfounded. The facility reported zero substantiated allegations documented within the last 12 months against a staff member.

Agency policy 5324.12 requires when the allegation is the result of sexual abuse by another inmate, the facility must notify the victim when the agency learns that the alleged abuser has been indicted on a charge, or convicted on a charge, and these steps are not required if the result of the allegation is unfounded. The facility Warden and the PREA investigator confirmed this communication process during the on-site review. The PREA Coordinator indicated knowledge of this occurring throughout the investigative process.

Conclusion: The agency has a policy requiring that any inmate who makes an allegation of suffering sexual abuse in an agency or facility is informed, in writing, as to whether the allegation has been determined to be substantiated, unsubstantiated, or unfounded. Based on the evidence provided FPC Alderson meets the provisions of this standard with compliance. No further action is required.

115.76 (a-d) The presumptive disciplinary sanction for staff who has engaged in sexual abuse at FPC Alderson is termination and this is explained in agency policy 5324.12. This policy was confirmed by the facility Warden during the interview process and reviewed by the auditor in the employee handbook. Staff shall be subject to disciplinary sanctions up to and including termination for violating agency sexual abuse and sexual harassment policies. The disciplinary action is commensurate with the acts committed, staff disciplinary history, and the sanctions imposed for comparable offenses by other staff with similar histories. The auditor reviewed documentation in attempts to determine if other staff actions may have contributed to the incident that led to disciplinary sanctions for staff such as: failing to act to prevent sexual abuse from occurring, standing by while the abuse takes place, failing to act as required after the incident, negligent supervision that leads to, or could lead to an incident, or deliberately ignoring evidence that a colleague has abused an inmate. No findings of this nature were reported within the two investigative reports reviewed. The facility reported zero incidents in the past 12 months for staff who have been terminated or disciplined for violation of the agency sexual abuse or sexual harassment policies.

The auditor reviewed the disciplinary action of staff with the facility Warden and the sanctions imposed for violation of this policy is termination. The facility Warden confirmed past incidents being referred to law enforcement for prosecution and notifying the applicable licensing board such as the Criminal Justice Services, Board of Nursing, and the Department of Education. These notifications occur upon termination or resignations in lieu of termination. This is required by agency policy 3420.11, Standards of Conduct.

Agency policy 5324.12, states, "If evidence supports that a staff member engaged in sexual abuse, the matter will first be referred for criminal prosecution. Administrative discipline will be conducted using the Program Statement Standards of Employee Conduct, the Program Statement Human Resource Management Manual, and the collective bargaining agreement".

Conclusion: FPC Alderson has a policy regarding disciplinary violations for acts of sexual abuse or sexual harassment. Based on the evidence provided by the facility such as: interviews, investigative reports, and agency policy referrals the auditor determined FPC Alderson meets the provisions required within this standard. No further action is required, and the presumptive expectation of disciplinary actions is termination.

Site Review Observations:

1. Reviewed Case Files
2. Reviewed Investigative Reports
3. Reviewed Inmate Notifications

Findings (By Provision):

115.77 (a-b) Agency policy 5324.12 requires any contractor or volunteer who engages in sexual abuse shall be prohibited from contact with inmates and shall be reported to law enforcement agencies. This procedure is not enforced if the activity is clearly not criminal, or the allegation is unfounded. Notifications will also be made to relevant licensing bodies and the facility shall take appropriate remedial measures to determine further contact with inmates in the case of any other violation of agency sexual abuse or sexual harassment. The facility did not report any volunteer or contractor terminations, discipline, law enforcement referrals, or notifications to relevant licensing bodies for violations of sexual abuse, sexual assault, or sexual harassment. This was confirmed during the facility Warden interview and informal interviews with the Executive Staff. The auditor reviewed documentation in attempts to determine if other volunteer or contractor actions may have contributed to the incident that led to disciplinary sanctions for staff such as: failing to act to prevent sexual abuse from occurring, standing by while the abuse takes place, failing to act as required after the incident, negligent supervision that leads to, or could lead to an incident, or deliberately ignoring evidence that a colleague has abused an inmate. No findings of this nature were reported within the two investigative reports reviewed.

Conclusion: FPC Alderson has a policy regarding disciplinary violations for acts of sexual abuse or sexual harassment. Based on the evidence provided by the facility such as: interviews, investigative reports, and agency policy referrals the auditor determined FPC Alderson meets the provisions required within this standard. No further action is required, as the presumptive expectation of disciplinary actions is termination, law enforcement referral, and notifications to licensing bodies.

115.78 (a-g) Agency policy 5324.12 informs inmates shall be subject to disciplinary sanctions pursuant to a formal disciplinary process following an administrative finding that the inmate engaged in inmate-on-inmate sexual abuse or following a criminal finding of guilt for sexual abuse. The facility reported zero substantiated administrative findings of inmate-on-inmate sexual abuse or criminal findings in the past 12 months. There were zero Substantiated Inmate-on-Inmate Abuse allegations. This was confirmed by the facility Warden, one Mental Health staff, one medical staff interview, and two inmate medical files were reviewed. The Mental Health staff indicated potential screenings to address or correct the underlying reasons or motivations for abuse. The facility utilizes medical staff for assistance and the facility Psychology Services Department for counseling services.

Agency policy 5270.09, advises the facility may discipline an inmate for sexual contact with staff only upon a finding that the staff member did not consent to such contact. The facility prohibits disciplinary action for a report of sexual abuse made in good faith based upon a reasonable belief that the alleged conduct occurred, even if an investigation does not establish enough evidence to substantiate the allegation. The facility prohibits all sexual activity between inmates and may discipline inmates for such activity.

Conclusion: The agency has a policy which states inmates are subject to disciplinary sanctions only pursuant to a formal disciplinary process following an administrative or criminal finding that the inmate engaged in inmate-on-inmate sexual abuse. The auditor reviewed all records and findings associated with the provisions of this standard and no further action is required. FPC Alderson meets the compliance required with this standard.

Auditor Overall Compliance Determination

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does

not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

Standard 115.81 Analysis

The following evidence was analyzed in making compliance determinations:

Documents :

1. FPC Alderson Pre-Audit Questionnaire Responses
2. Inmate Medical Files
3. Agency policy 5324.12, Sexually Abusive Behavior Prevention and Intervention Program pages 1-62, June 4, 2015
4. Classification Records
5. Mental Health Confidential Disclosure Statement
6. Medical and Mental Health Records

Interviews:

1. Facility Warden
2. One Medical Staff
3. One Mental Health Staff
4. Inmate Reporting Prior Sexual Victimization

Site Review Observations:

1. Reviewed inmate files.

Findings (By Provision):

115.81 (a-e) The auditor reviewed 36 randomly selected electronic medical files and reviewed the agency policy regarding inmates experiencing prior victimization and abusiveness. Agency policy 5324.12 explains the inmates are screened by mental health providers upon entry to the facility. This information explains staff shall ensure that the inmate is offered a follow-up meeting with a mental health practitioner within 14 days of the intake process. This was also confirmed during the interview with the Mental Health staff. Agency policy 5324.12 explains, If the screening pursuant to PREA standard 115.41 indicates that a prison or jail inmate has

experienced prior sexual victimization, whether it occurred in an institutional setting or in the community, staff shall ensure that the inmate is offered a follow-up meeting with a medical or mental health practitioner within 14 days of the intake screening or sooner, if clinically indicated. This information is documented in the medical incident injury report. Interviews with one inmate who disclosed sexual victimization during a risk screening interview, and review of corresponding documentation is consistent with the policy requirement and adhere to this standard. The auditor interviewed an inmate that reported prior sexual victimization during the risk screening and the inmate confirmed being offered a follow-up referral with mental health staff. The inmate advised this was conducted within a few days and the inspection of the medical file indicated 2 days.

The auditor identified no concerns with the tracking mechanism presented by the medical staff regarding the 14-day reviews. The auditor reviewed 36 inmate files and no immediate concerns were identified. The staff member from intake will generate the referral request based on the information received during the inmate risk screening. The referral will be noted in the medical files, and this begins an internal time clock to track the number of days until the 14-day review is completed. The medical staff and authorized staff are provided a username and password to access the medical records. This information is strictly for treatment plans, housing decisions, bed assignments, work details, educational programming, or as otherwise required by federal, state, and local law. The medical screening form is signed by inmates to provide consent for professional health care services and receive instructions regarding access to medical, dental, and mental health care. Interviews with medical and mental health staff revealed that a consent form is signed by the inmates regarding the limits to confidentiality. The auditor reviewed two sample inmate consent forms and no discrepancies were noted in association with the mental health follow-up reviews.

Conclusion: FPC Alderson has a policy governing the facility response to medical and mental health services in correlation with the review of the inmate risk assessment screenings. The policy stresses confidentiality within the medical environment and manages the immediate health needs, security risks, and the determination for further treatment. A review of all evidence provided by the facility indicates full compliance with the provisions of this standard. No further action is required.

Interviews:

1. Facility Warden
2. One Medical Staff
3. One Mental Health Staff
4. Inmate Reporting Prior Sexual Victimization
5. Sexual Assault Nurse Examiner

Site Review Observations:

1. Reviewed files and records logs

Findings (By Provision):

115.82 (a-d) Agency policy 5324.12 requires inmate victims of sexual abuse receive timely, unimpeded access to emergency medical treatment and crisis intervention services. The facility offers 24-hour medical care and 24-hour crisis intervention services. The facility provides off-site emergency room care and utilizes the Princeton Community Hospital for SANE exams.

The Family Refuge Center offers 24-hour counseling and crisis intervention services, and the facility supports its own crisis stabilization and transitional care units. The Princeton Community Hospital performs all sexual assault examinations and offers prophylaxis to safeguard from sexually transmitted diseases. The SANE provides the notification to the Family Refuge Center for on-site advocacy during the exam. The volunteers will be notified to provide crisis intervention services and advocacy.

Interviews with the medical staff indicated the level of care at FPC Alderson is consistent with the level of care demonstrated within the community. The auditor was unable to speak with the SANE staff due to scheduling conflicts, and concerns with the COVID-19. The auditor reviewed the contract for the Family Refuge Center during the audit phase. The Psychology Services Department also provides on-site counseling services to the victims of sexual abuse. This auditor reviewed the inmate handbook provided by the facility to ensure compliance. The treatment services are provided to every victim without financial cost, regardless of whether the victim names an abuser or cooperates with any investigation arising out of the incident. This was confirmed by the Health Services Administrator and no concerns were present during the informal inmate interviews. The auditor interviewed one inmate who reported sexual abuse during risk screening, and they did not indicate any concerns within this standard.

Conclusion: Based on the auditor's review of the evidence provided by the facility to include policies regarding access to treatment services, samples of secondary materials relating to forms, logs, and immediate notification documents, FPC Alderson is fully compliant with this standard. No further action is required.

6. 15 Random Inmate Interviews

Site Review Observations:

1. Reviewed files and records logs

Findings (By Provision):

115.83 (a-h) The facility Chief Psychologist indicated the facility offers medical and mental health evaluation and treatment to all inmates who have been victimized by sexual abuse. The Chief Psychologist advised the evaluation and treatment plans are consistent with the level of care demonstrated within the community. At times, the inmate may qualify for additional services due to their status. The inmate treatment plans may consist of referrals for continued care, medications, transfers to other facilities, or accommodations upon release.

FPC Alderson does house female inmates as confirmed during the population analysis. There have been no reported incidents involving vaginal penetration that resulted in the need to perform a pregnancy test. This was confirmed during review of the PAQ and during the interviews with the medical and mental health staff.

Agency policy advises inmate victims will be offered tests for sexually transmitted infections and all treatment services will be provided at no cost to the victim. This information is supported in the inmate handbook. The facility Psychology Services Department will provide on-site counseling services. This information was confirmed during the Health Services interview and the informal staff interviews. The informal inmate interviews expressed knowledge regarding the free medical, mental health, and emotional support services offered at the facility. The facility reported zero substantiated allegations of sexual abuse in the past 12 months.

Conclusion: Based on the auditor's review of the following evidence provided by the facility: policy governing ongoing medical and mental health care for sexual abuse victims and abusers, medical records indicating timely access to treatment plans, referrals, and sexually transmitted infections testing as medically appropriate. The auditor determined the facility was found in compliance with the provisions of this standard as staff indicate the level of care is consistent with the level of care within the community. No further action is required.

Standard 115.86 Analysis

The following evidence was analyzed in making compliance determinations:

Documents :

1. FPC Alderson Pre-Audit Questionnaire Responses
2. Investigative Reports
3. Agency policy 5324.12, Sexually Abusive Behavior Prevention and Intervention Program pages 1-62, June 4, 2015
4. Classification Records

Interviews:

1. Facility Warden
2. PREA Coordinator
3. Incident Review Team Member

Site Review Observations:

1. Discussed the Incident Review Team Process

Findings (By Provision):

115.86 (a-e) Agency policy 5324.12 mandates the facility conduct a sexual abuse incident review at the end of every sexual abuse investigation unless the allegation has been determined to be unfounded. This incident review must be conducted within 30 days of the conclusion of the investigation. This process was confirmed by

the Warden and PREA Compliance Manager interviews. The incident review team consists of the following: The Facility Warden/Designee, Associate Warden, the facility PREA Compliance Manager, line supervisors, SIS for reviews involving inmate-on-inmate sexual abuse, OIA for all staff-on-inmate sexual abuse reviews, health care staff, mental health practitioners, and all other staff deemed appropriate by the facility Warden.

The facility presents a report of its findings from the sexual abuse incident reviews and makes a final recommendation for improvement or documents the reasons for not performing improvements. The criteria included within the reviews consists of the following: suggested policy revisions, incident motivations by race, ethnicity, gender identity, lesbian, gay, bisexual, transgender, intersex, gang affiliation, physical barriers that may have contributed to the abuse, adequate staffing levels, video monitoring equipment or lack of, mandated training by staff and inmates, appropriate supervision, notifications, and operational considerations. The auditor reviewed two incident review documents and noted the information was provided within the form. The Warden confirmed review of two reported facility incident reviews. The Warden/Designee shall distribute copies of the Sexual Abuse Incident Review Report to the Regional Director and the Regional PREA Coordinator. This was confirmed in agency policy 5324.12, and during the facility Warden interview. The auditor determined the incident reviews were not completed within 30 days of the conclusion of the investigations. The facility had identified the issue prior to the on-site review and the Warden confirmed future steps have been enacted to ensure this does not occur again. The PREA Compliance Manager performs this process with the tracking software and ensures future compliance.

Conclusion: The auditor determined the facility met this standard with compliance based on the review of the following documentation: policies on conducting sexual abuse incident reviews, sample documentation or completed investigations, documentation of review team minutes, and recommended findings.

4. PREA Compliance Manager

Site Review Observations:

1. Discussed the data collection process

Findings (By Provision):

115.87 (a-f) The auditor reviewed the agency uniform data for every allegation of sexual abuse and compared the data to the most recent version of the Survey of Sexual Violence (SSV) conducted by the Department of Justice. The agency aggregates the incident-based sexual abuse data annually and includes definitions as appropriate to the Survey of Sexual Violence.

The auditor reviewed the data collected from 2014 to 2020 as the data is compiled for a one-year (calendar) period after December. FPC Alderson does not operate another facility or contract with other facilities for the confinement of its inmates. The agency securely maintains all documentation used to compile the information and the SIS and OIA maintains the investigative data and records. Approved data is posted on the Agency website and available upon request by the Department of Justice. The facility Warden confirmed the use of all facility data relative to this standard.

Agency policy 5324.12 fully explains the procedures associated with this standard compliance:

The Bureau tracks information concerning sexual abuse using the methods listed below. In disseminating this information within the Bureau, or releasing information to a third-party, the Bureau complies with the Privacy Act and Freedom of Information Act, and all other applicable laws, rules, and regulations.

(1) SIS Data. The SIS must maintain secure investigative files and data, which include: The victim(s) and perpetrator(s) of sexually abusive behavior. A factual description of the events. Formal and informal action(s) taken. All collateral reports, supporting memoranda, and videotapes. Medical forms (e.g., injury assessments). Any other evidentiary materials pertaining to the allegation.

(2) Office of Internal Affairs Data. The Office of Internal Affairs reports the cumulated data on the inmate victims of staff sexually abusive behavior to all Chief Executive Officers and the Psychology Services Department Administrator at the end of each quarter and at the end of each fiscal year.

(3) Inmate Data. The Information, Policy, and Public Affairs Division collects and reports on the data used in the Bureau of Justice Statistics Survey of Sexual Violence.

(4) SENTRY Data. The captain in each institution is responsible for accurate STG SENTRY assignments related to sexually abusive behavior. Access to this SENTRY assignment must be limited to those staff who are involved in managing and treating the inmate victim or inmate perpetrator or investigating the incident.

The National PREA Coordinator, with the assistance of the Regional PREA Coordinators, aggregates, and reviews data from all sources annually.

Conclusion: The auditor reviewed the agency policies for collecting data on sexual abuse allegations, the instrument used for collecting the data, the set of definitions applied, the facility website, and a sample of the historical data used to determine the facility is fully compliant with the provisions of this standard. No further action required.

This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

Standard 115.401 Analysis

The following evidence was analyzed in making compliance determinations:

Documents :

1. FPC Alderson Responses to the Pre-Audit Questionnaire
2. FPC Alderson October 28, 2017, PREA Audit Report
3. Agency policy 5324.12, Sexually Abusive Behavior Prevention and Intervention Program pages 1-62, June 4, 2015
4. PREA Audit Notice Verification
5. Postal Communications from Inmates

Interviews:

1. Facility Warden
2. PREA Coordinator
3. Inmates Sending Correspondence

Site Review Observations:

1. Reviewed the Agency Website and Facility Data

Findings (By Provision):

115.401(a-n) FPC Alderson conducted its second cycle PREA audit October 28, 2017, and the facility was found in compliance on 42 standards, no standards exceeded expectation, 42 met the standards, and 1 standard (115.14) was documented as not applicable. The auditor reviewed the report on the facility web page during the Pre-Audit phase. This data was confirmed by the PREA Compliance Manager during the on-site review. All facility audit reports were posted on the agency website.

No interview restrictions were placed on the auditor during the on-site review. The auditor received all documents requested and was provided electronic viewing upon request. The on-site review provided the auditor the opportunity to conduct private interviews with inmates, staff, volunteers, and contractors with limitations due to the potential concerns with the COVID-19 pandemic. The facility PREA Compliance Manager provided photographic evidence regarding the posting of the PREA Audit Notification in all inmate housing units on April 1, 2021. The audit notice was posted in both English and Spanish formats, large color print, and visible for everyone to see upon entering the units. This posting provided the inmates and staff a name and mailing address for the auditor. The auditor confirmed this posting during the on-site review as staff and inmate interviews validated the posting at least 6 weeks prior to the on-site review. The auditor received one postal communication from an inmate at FPC Alderson and zero correspondence from staff.

Conclusion: The auditor has determined based on the evidence provided by the facility and review of the agency website; FPC Alderson meets compliance with the provisions of this standard. No additional action is required.
