<p><b>Number of buildings:</b></p> <p>Auditors should count all buildings that are part of the facility, whether inmates are formally allowed to enter them or not. In situations where temporary structures have been erected (e.g., tents) the auditor should use their discretion to determine whether to include the structure in the overall count of buildings. As a general rule, if a temporary structure is regularly or routinely used to hold or house inmates, or if the temporary structure is used to house or support operational functions for more than a short period of time (e.g., an emergency situation), it should be included in the overall count of buildings.</p>	74

DOJ PREA Working Group FAQ on the definition of a housing unit: How is a "housing unit" defined for the purposes of the PREA Standards? The question has been raised in particular as it relates to facilities that have adjacent or interconnected units. The most common concept of a housing unit is architectural. The generally agreed-upon definition is a space that is enclosed by physical barriers accessed through one or more doors of various types, including commercial-grade swing doors, steel sliding doors, interlocking sally port doors, etc. In addition to the primary entrance and exit, additional doors are often included to meet life safety codes. The unit contains sleeping space, sanitary facilities (including toilets, lavatories, and showers), and a dayroom or leisure space in differing configurations. Many facilities are designed with modules or pods clustered around a control room. This multiple-pod design provides the facility with certain staff efficiencies and economies of scale. At the same time, the design affords the flexibility to separately house inmates of differing security levels, or who are grouped by some other operational or service scheme. Generally, the control room is enclosed by security glass, and in some cases, this allows inmates to see into neighboring pods. However, observation from one unit to another is usually limited by angled site lines. In some cases, the facility has prevented this entirely by installing one-way glass. Both the architectural design and functional use of these multiple pods indicate that they are managed as distinct housing units.</p>	24

---

<p><b>33. Enter the total number of TARGETED INMATES/RESIDENTS/DETAINEES who were interviewed:</b></p> <p><i>As stated in the PREA Auditor Handbook, the breakdown of targeted interviews is intended to guide auditors in interviewing the appropriate cross-section of inmates/residents/detainees who are the most vulnerable to sexual abuse and sexual harassment. When completing questions regarding targeted inmate/resident/detainee interviews below, remember that an interview with one inmate/resident/detainee may satisfy multiple targeted interview requirements. These questions are asking about the number of interviews conducted using the targeted inmate/resident/detainee protocols.</i></p> <p><i>For example, if an auditor interviews an inmate who has a physical disability, is being held in segregated housing due to risk of sexual victimization, and disclosed prior sexual victimization, that interview would be included in the totals for each of those questions. ### Instructions for Overall Compliance Determination Narrative

*The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor’s analysis and reasoning, and the auditor’s conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. #### Policy States:

The facility has implemented policies and procedures that enable inmates to shower, perform bodily functions, and change clothing without nonmedical staff of the opposite gender viewing their breasts, buttocks, or genitalia, except in exigent circumstances or when such viewing is incidental to routine cell checks. Such policies and procedures shall require staff of the opposite gender to announce their presence when entering an inmate housing unit. For purposes of pat searching, inmates will be pat searched in accordance with the gender of the institution, or housing assignment, in which they are assigned. Transgender inmates may request an exception. The exception must be pre-authorized by the Warden, after consultation with staff from Health Services, Psychology Services, Unit Management, and Correctional Services. Exceptions must be specifically described (e.g., “pat search only by female staff”), clearly communicated to relevant staff through a memorandum, and reflected in SENTRY (or another Bureau database, e.g., posted picture file). Inmates should be provided a personal identifier (e.g., notation on commissary card, etc.) that indicates their individual exception, to be carried at all times and presented to staff prior to pat searches. Operations: All inmates interviewed indicated they were able to shower, dress and use the restroom without being viewed by the opposite sex. The transgender I interviewed stated she felt comfortable and could request a female search her if she wanted. I inspected the shower areas and inmates could shower without anyone viewing them naked.

**Policy States:**

§ 115.43 Protective custody. (a) Inmates at high risk for sexual victimization shall not be placed in involuntary segregated housing unless an assessment of all available alternatives has been made, and a determination has been made that there is no available alternative means of separation from likely abusers, the facility may hold the inmate in involuntary segregated housing for less than 24 hours while completing the assessment. Inmates are placed in administrative detention in accordance with the Program Statement Special Housing Units. (b) Inmates placed in segregated housing for this purpose shall have access to programs, privileges, education, and work opportunities to the extent possible. If the facility restricts access to programs, privileges, education, or work opportunities, the facility shall document: (1) The opportunities that have been limited; (2) The duration of the limitation; and (3) The reasons for such limitations. When an inmate is placed in special housing involuntarily, access to programs, privileges, education, or work should not be interrupted, to the extent possible. If they are limited, the Chief of Correctional Services ensures that documentation exists reflecting the limitation, duration, and rationale for limitation. (c) The facility shall assign such inmates to involuntary segregated housing only until an alternative means of separation from likely abusers can be arranged, and such an assignment shall not ordinarily exceed a period of 30 days. (d) If an involuntary segregated housing assignment is made pursuant to paragraph (a) of this section, the facility shall clearly document: (1) The basis for the facility’s concern for the inmate’s safety; and (2) The reason why no alternative means of separation can be arranged. When determining an appropriate method of safeguarding the inmate assigned “at risk” for victimization, the Warden ensures all options are considered by completing, signing, and dating form BP-A1002, Safeguarding of Inmates Alleging Sexual Abuse/Assault Allegation. The Warden should evaluate the least restrictive methods for separation of the alleged victim and alleged perpetrator. Operations: No inmate is placed in segregation housing during the investigation process.

#### **115.52 (a)**

- Is the agency exempt from this standard? NOTE: The agency is exempt ONLY if it does not have administrative procedures to address inmate grievances regarding sexual abuse. - If the agency claims the maximum allowable extension of time to respond of up to 70 days per 115.52(d)(3) when the normal time period for response is insufficient to make an appropriate decision, does the agency notify the inmate in writing of any such extension and provide a date by which a decision will be made? (N/A if agency is exempt from this standard.)  
 Yes  No  NA
- At any level of the administrative process, including the final level, if the inmate does not receive a response within the time allotted for reply, including any properly noticed extension, may an inmate consider the absence of a response to be a denial at that level? #### 115.52 (e)

 Yes  No  NA

#### Policy States:

All staff report incidents of sexual abuse to the Operations Lieutenant. The Operations Lieutenant immediately safeguards the inmate. The Operations Lieutenant promptly refers all inmates reported or suspected of being the victim of sexually abusive behavior to the Health Services Unit for physical assessment and documentation of injuries. The Operations Lieutenant promptly refers all inmates reported or suspected of being the victim of sexually abusive behavior to Psychology Services for

assessment of vulnerability and treatment needs. In addition, during business hours, the Operations Lieutenant ensures that the SIS, Chief of Correctional Services, Institution PREA Compliance Manager, and Warden are notified. During non-business hours, the Operations Lieutenant ensures that the SIS, Chief of Correctional Services, Institution PREA Compliance Manager, Duty Officer, Health Services staff, and on call Psychologist are notified. The Institution PREA Compliance Manager reviews relevant factors and decides whether or not to proceed with full activation of the Response Protocol. Not all allegations of sexually abusive behavior require full activation of the protocol. In some cases, the Institution PREA Compliance Manager will determine that there is not sufficient reason to proceed (the alleged victim credibly recanted; the alleged perpetrator was not in the institution on the date of the allegation, etc.) and the Response Protocol may be terminated. In cases where more information is needed, or where there is a credible and serious allegation or instance of sexually abusive behavior, the full Response Protocol must be implemented. Once the Institution PREA Compliance Manager determines that the intervention should continue, a sensitive and coordinated response is necessary. Services will be provided in an environment that meets both custody and therapeutic needs. The full Response Protocol, monitored by the Institution PREA Compliance Manager, involves the following components. Correctional Services safeguard the inmate, engage in evidence collection and preservation at the institution, including inmate clothing and footwear, investigate cases involving inmate perpetrators, arrange for outside medical trips, if necessary, in accordance with the Program Statement Escorted Trips; and ensure that STG categories for victims and predators are entered into SENTRY. Psychologists are responsible for crisis intervention, assessment of treatment needs, documentation of the evaluation results, treatment, psychiatric referral, and other treatment options related to the alleged victim. Psychologists also notify the qualified agency staff member or the outside victim advocate, if necessary, to assist the inmate. Professionally trained Health Services clinicians are responsible for assessment, examination, documentation, and treatment of inmate injuries arising from incidents of sexual abuse, including testing when appropriate for pregnancy, HIV, and other sexually transmissible infections. Where indicated, medical staff, trained in the collection of sexual assault evidence (e.g., “rape kit”) should conduct an examination for physical evidence that may be used later in formal investigations, or refer the inmate to trained health care professionals from the local community or at the local community facility equipped (in accordance with local laws) to evaluate and treat sexual assault victims. After responding to the initial incident, staff noted above have additional responsibilities for follow-up with the inmate victim. Operations: The facility has developed a comprehensive plan to coordinate actions in response to an incident of sexual abuse among staff first responders, medical and mental health staff, investigators, and facility Administration. This plan will be used to supplement PREA policies and procedures regarding sexual misconduct reporting, response, investigation, and prevention of retaliation.

#### Policy States:

Procedures for Inmate Victims. Medical staff are responsible for examination, documentation, and treatment of inmate injuries arising from sexually abusive behaviors, including testing when appropriate for pregnancy and sexually transmissible infections (STIs), including HIV. When an inmate self-reports, or is referred to Health Services, medical staff notify Psychology Services and Correctional Services prior to conducting an injury assessment. The injury assessment, and the inmate's subjective/objective findings, are documented fully in the electronic health record. Health Services staff perform the injury assessment without compromising forensic evidence. The forensic examination is performed by qualified sexual assault examiners (e.g., Sexual Assault Nurse Examiner, Forensic Nurse Examiner, or Sexual Assault Forensic Examiner). Where indicated, Health Services staff with appropriate qualifications may conduct a forensic examination at the institution. At institutions where Health Services staff are neither trained nor certified in forensic examinations, the inmate is examined at the institution by a qualified health care professional from the community, or at a local community facility (e.g., local hospital or rape crisis center) equipped to conduct such examinations. The forensic examination should occur as soon as practicable, but within 72 hours of BOP staff becoming aware that an inmate reported involvement in a sexually abusive assault. An inmate's refusal of a forensic examination is documented in the electronic health record. If a trip to a local community facility is needed, Health Services staff coordinate with Correctional Services to transport the inmate to the facility. When community care is completed, institution providers render follow-up care, including screening for infectious disease (HIV, viral hepatitis, or other sexually transmissible infections),

pregnancy testing for female victims, and administration of prophylactic medication (if exposure to bloodborne pathogens is suspected) if these services were not already rendered during the community visit. Procedures for Alleged Inmate Perpetrators. Health Services clinicians also perform a physical injury assessment on any alleged inmate perpetrators without compromising forensic evidence. Providers document the assessment in the electronic health record and provide a copy to Correctional Services for insertion in the investigation packet. Forensic examinations of inmate perpetrators will be in consultation with relevant outside law enforcement agencies, and consistent with applicable laws and policies. Operations: I reviewed notes in medical files indicating they checked a perpetrator for STDs and notified the victim.
